"CC 2013 provided inspiration, practical ideas and connections that had an immediate impact for our management team. We are more deeply aligned around the principles of Conscious Capitalism, and better equipped to bring them to life in our company. We look forward to CC 2014!"

Carrie Freeman-Parsons
Vice Chair, Freeman

"After attending the Annual Conscious Capitalism Summit for several years, I was amazed at the difference that our organization experienced from having our Executive Team attend CC 2013. The team was able to provide different perspectives, identify different insights, apply their learning to their specific areas, and all at a faster pace. Attending as a group has also allowed us to have deeper, more purposeful conversations."

Greg Massey
CEO, First United Bank
