Conversion Rate Optimization Services

# DID YOU KNOW?

For every **\$92** spent  
acquiring traffic, only **\$1** is  
spent to convert it.

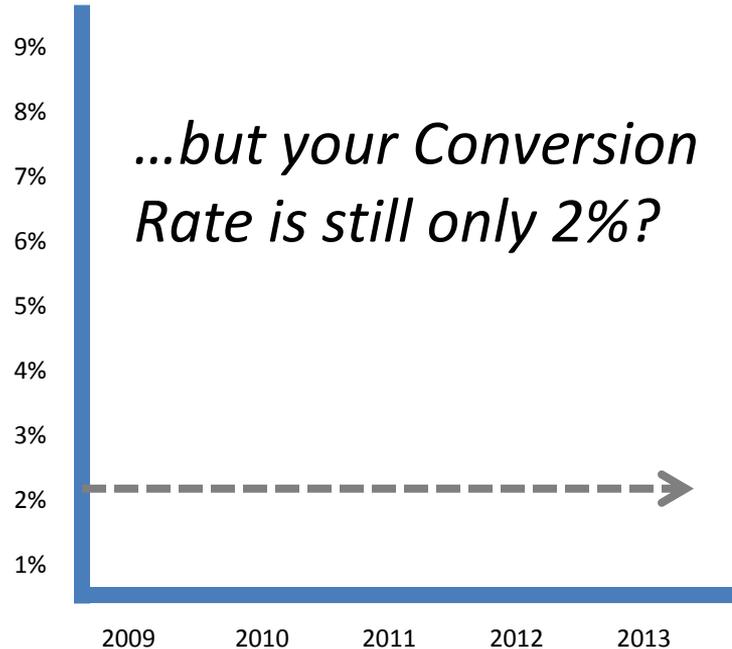

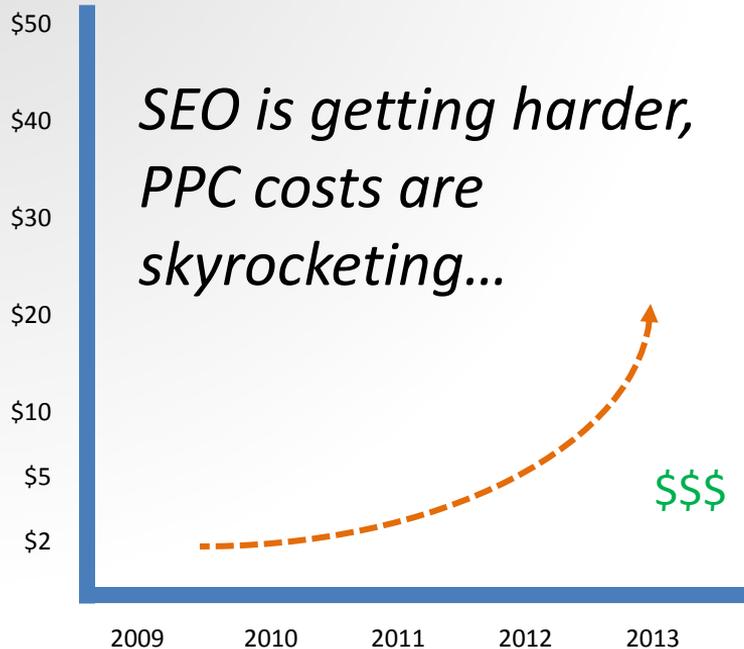

“NEVER STOP TESTING,

&

YOUR ADVERTISING  
WILL NEVER STOP  
IMPROVING.”

- David Ogilvy  
("The Father of Advertising")

2% is great...*for milk!*

Your website, on the other hand, should be a

high-performance machine

that's CONSTANTLY improving and converting

*more visitors into leads or sales.*

WHAT

IF

2% became 2.5%?

Average Order  
Value Increased  
from \$74 to \$83?

Lifetime Value Grew  
by 24%?

## Example website w/ 10k visits per month...

# OK, HOW?

*Let our stat geeks get  
their nerdy little hands on  
your web analytics data...*

They'll look for **drop-out points**, **high-anxiety forms**, **confusing user experiences**, **pages with poor calls-to-action**, **incompatible interfaces**, **low-quality landing pages...**

...and anything else that could be causing your visitors to *BOLT* instead of **BUY**.

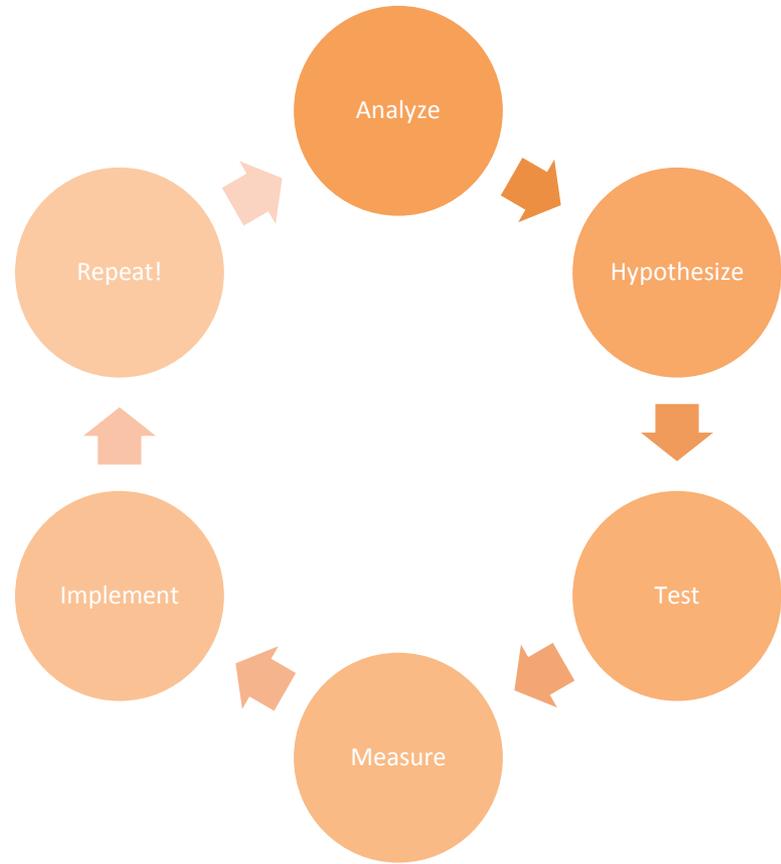

Next, we begin to form **HYPOTHESES**

*(Don't worry...that's just a big FANCY way of saying we come up with ideas to improve your website based on the data we combed through.)*

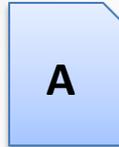

These hypotheses turn into controlled **A/B Tests**

Our **data-driven process** promotes continual improvement based on real visitor feedback and behavior...

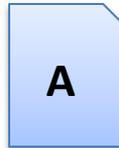

...not somebody's opinion.

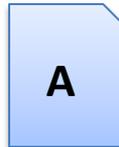

# RECENT RESULTS

Increased PPC Campaign conversion rate 90% by testing and improving the landing page.

Improved traffic to lead capture page by 69% by removing distractions and improving calls-to-action on the pricing page.

Increased PPC leads by 49% by testing and optimizing strong landing pages.

# CRO starter
