

Instagram Lock Screen App for Windows* 8.1 Solutions Brief

Solutions Brief
[Intel® Developer Zone](#)

Enabled by Intel® Atom™ Tablets for Windows* 8.1

Creating a photo mosaic for tablets has never been easier. With the Instagram Lock Screen app by Dream Team Mobile, users can arrange their most treasured photos into custom creations. Or, they can stay current with automatic updates that include popular photos.

Featured on Intel® Atom™ tablets for Windows* 8.1, this new app provides a unique way for users to express their creativity and stay connected. Thanks to the interactive touch-capabilities of Windows* 8.1 tablets and their high-definition screens, users will delight in how easily they can create beautiful photo collections.

Instagram Lock Screen features:

- Allows users to directly access Instagram photos by connecting to personal accounts through the app.
- Enhances customized lock screens by allowing users to feature a gallery of favorite and popular photos.
- Enables users to configure regular updates to their photo mosaics.

Users Create Custom Galleries of Favorite Photos with the Instagram Lock Screen App

The Instagram Lock Screen app makes it easy for tablet users to customize their devices with custom photo collections. Thanks to the superior high-definition screens and interactive touch capabilities of Windows* 8.1 tablets, users easily design beautiful and up-to-date lock screens.

Instagram Lock Screen features:

Beautiful Photo Mosaics

Lock screens instantly become meaningful when users create custom photo mosaics.

Direct Connection

App enables direct connection to personal Instagram accounts, making it easy to select photos and receive updates.

Personal Photo Selection

Settings allow users to feature collections comprised entirely of personal Instagram photos. Users can also include photos from the tablet's photo album.

Popular Photo Selection

Popular Instagram photos posted by others can be included in the tablet user's lock screen mosaic.

Manual and Automatic Updates

Users can manually or automatically change the photos featured on their screens. Various automatic update options include: every 30 minutes, hourly, daily or weekly.

Instagram Lock Screen Powered by Intel

Users of Intel Atom tablets for Windows* 8.1 can now add personal and creative touches to their lock screens with the Instagram Lock Screen app. The Intel® Atom™ processor, full HD high-resolution display and interactive touch capabilities of new Windows* 8.1 tablets make them perfect for showcasing this amusing app.
