# Light up your venue with a spellbinding mix of color and light.

Mojo Agua introduces the World's first fully illuminated disposable water beverage container. Designed to enhance the atmosphere, each bottle of Mojo Agua delivers a refreshing, hydrating experience unlike anything your customers have ever seen.

**Mojo's patent-pending electronic label engages customers visually, from a distance - a viral marketers dream. Mojo Agua attracts passersby, converts the curious, and delivers a steady stream of new fans and followers of the brand.**

## Electro Light

Mojo Electro Light was designed as an atmosphere enhancement, for entertainment venues and nighttime special events. Unlike alcoholic or highly caffeinated mood altering drinks, Mojo Electro Light delivers all of the fun and exciting benefits but contains nothing but ultra purified drinking water, making it suitable for all ages.

Mojo Electro Light is invigorating, offering many of the benefits of an energy drink without harmful additives. Decades of scientific studies confirm the positive impact light can have on an individual's mood and psychological well-being. These energizing effects of light provide a basis for this exciting new water beverage.
