

BLACKHAWK

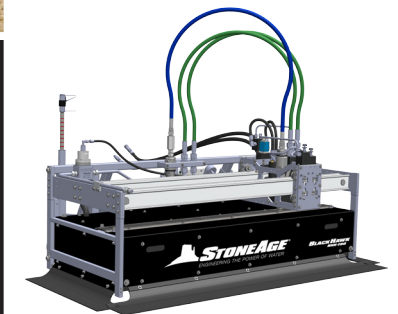

Concrete Hydro-demolition and Scarification System

SKID STEER ATTACHMENT

OPTIONAL SCARIFICATION HEAD

BLACKHAWK BHK-100 UNIT

The **BLACKHAWK BHK-100** is a cost effective and high performing system for concrete hydro-demolition and scarification applications.

- More effective than jackhammering for concrete removal
- Does not negatively affect sound concrete or introduce fracturing into the structure
- Cleans and decontaminates embedded metal elements and rebar without causing damage
- Adaptable to your choice of implement (standard flow skid steer, telehandler, etc.)
- Designed for use at any orientation
- Choice of penetrating single jet or multi-jet bar head for increased efficiency when preparing concrete surfaces
- Powerful concrete removal on bridges, garages, dams, and roadways

TOOL OVERVIEW:

Pressure	Up to 22k psi (1500 bar)
Flow	Up to 50 gpm (190 l/min)
Cut Path	Up to 48 in. (1.22 m)
Weight	1200 lbs (544 kg)
Machine Attachment	Universal skid steer plate
Avg. Removal Rate	8.4 cf/h @ 100 hp
