

Wisconsin Oven Corporation

COMPANY PROFILE

Wisconsin Oven Corporation is located in East Troy, Wisconsin, southwest of Milwaukee and northwest of Chicago. Our main manufacturing operations and various subsidiaries and divisions are housed in our complex of buildings located in the East Troy Business Park. Wisconsin Oven Corporation has been designing, engineering, and manufacturing industrial ovens and other heating equipment since 1973. Our custom and standard industrial ovens are used for a multitude of applications including heat treating, finishing, drying, or curing. Many of the industries we serve require specific temperature uniformity and equipment performance documentation. Our experienced design team is able to meet even the most stringent standards for our customers' equipment.

“In business there are only a few ways to differentiate yourself from the competition. It is your people that can create the real difference, who can create the **WOW** experience. And the **WOW** experience is something that causes your customer to feel a positive tingle, to want to come back and back and back to you. At Wisconsin Oven our goal is to provide our customers with outstanding customer service. We want all our customers to experience the **WOW**. Our mission statement says it all:

AT Wisconsin Oven Corporation OUR Work Of Champions

Will Outperform Competition AND Win Our Customers With Ongoing Commitment.

Some talk the talk,

We WOC the walk!

At Wisconsin Oven Corporation our Champion employees create the **WOW** experience for our customers. They differentiate us from the competition by providing outstanding customer service that keeps our customers coming back again and again. We realize that the success of our company depends on our Championship team of employees, which is why we have developed a company culture that recognizes and rewards our employees.

In 2012 Wisconsin Oven Corporation was acquired by PLC Holding of France. PLC Holding is comprised of Elmetherm, Elino, Wistra, Wisconsin Oven Corporation, and Mecarom Dotcom LTD. The group has a worldwide presence with offices located in the United States, Germany, France, Romania, India, and China. PLC Holding provides products and services for a wide range of industries that utilize heat processing equipment. Their target markets include automotive, aerospace, electronics, chemical, technical ceramics, porcelain, automation, refractory materials, and powder metallurgy. PLC Holding provides customers in these markets with engineering and manufacturing for material handling systems, automation systems, heat treating industrial ovens, and furnaces. The combined experience and knowledge of the group allows all companies within PLC Holding to provide their customers with a broad range of innovative solutions for their process requirements.
