

# Sagacious DISPATCH

Ranked #1  
Best in KLAS\*

“When you are shifting your focus from a large implementation to more targeted projects, we want to provide the necessary expertise to optimize your configuration.”

- KYLE ADAMS

## THE CHALLENGE

You have taken a huge step in implementing Epic, but you still have a list of optimization projects that you have not had the resources to tackle. Your team is busy resolving issues in your system, or is working on your highest priority optimization projects. You're struggling to find the best strategy for accomplishing the other optimization projects on your list and managing organizational changes.

**SUMMARY /** It is important that your short-term projects are implemented with efficiency, accuracy, and expertise. These projects fulfill critical needs at your organization, and have the power to increase employee satisfaction, improve patient care, reduce operating costs, and increase revenue. We will partner with you to implement quick, cost-effective organizational and system changes that produce these benefits.

## THE SAGACIOUS ADVANTAGE

Who better to help you navigate Epic software than former Epic employees? Members of the **Sagacious** leadership team have played critical roles in high-profile implementations, developing extension programs, and creating e-learning initiatives. Our project managers leverage new technology, smart processes, and personal feedback.

**Sagacious** ranks as the top service firm supporting EMR implementations, according to the

2013 Best in KLAS Awards: Software & Services Report. We provide exemplary service to our clients by attracting the best and the brightest minds and creating a sustainable, enjoyable work environment to form long-term working relationships. The result is that our consultants are happier, more knowledgeable, and better equipped to help make your project a success.

Our services are continually evolving to meet our customers' needs. Beyond providing **Staff Augmentation** for implementation and support, **Sagacious** provides meaningful solutions to complex endeavors. Our service lines include: **Strategic Revenue, Strategic Clinical, Sagacious Connect, Sagacious Dispatch, Sagacious Satisfaction, and Sagacious Analytics.**

## OUR SOLUTION

We can help you roll out specific pieces of Epic functionality more quickly. We will work to understand your priorities, help you determine the scope and timeline of the project, and provide the necessary staff from our team comprised of 97% former Epic staff.

Our team of experts will work quickly to accomplish your projects, saving you time and money. With our integrated knowledge, we will identify areas that may be affected by system changes, reducing the risk to live functionality. We can present you with your configuration options and provide you with recommendations, speeding up the discovery and decision-making process.

You might consider utilizing our expertise in the areas below, but we can work with you to address any of your Epic needs.

- *SER Cleanup*
- *Charge Router Cleanup*
- *Implementing ABNs*
- *Patient Confidentiality*
- *Workqueues*
- *Reporting*
- *Flowsheets*
- *Navigators*
- *Self-Pay Follow-up*
- *Training Material Optimization*
