

Eyeplay™

Wall

“Our customers really enjoy the EyePlay™ wall. We have both kids and adults playing it. The kids don’t want to leave it and that keeps their parents shopping longer.”

Premium Interactive Playground - Fun & Unique

EyePlay™ Wall is a highly advanced interactive display technology that is perfect for a wide range of establishments. It includes motion-activated games that kids can play with their entire bodies. The colorful and exciting graphics get children up off their feet, playing and laughing.

Why Children Love the EyePlay™ Wall

Children and indeed the entire family love the EyePlay™ Wall. Instantly, the interactive gaming system captures everyone's attention, ignites children's imaginations and encourages exercise.

The EyePlay™ Wall couldn't be any more intuitive, and children of almost any age can step right up and begin playing.

“The area where we placed the exhibit tends to attract younger kids, but now with the EyePlay™ Wall we’ve notice a more broad age range. Living in such a digital environment, it can be easy to be swept into the world of small screens and virtual interaction. But the EyePlay™ Wall brings the focus up from a small monitor by marrying a fun technological experience with an interactive game play that is achieved as a family unit, instead of individually. This is our goal: family interaction.”
Catie Richwine, Programming Coordinator and Curator
Explorium Lexington, KY

The Interactive Virtual Playground!

- A fun, interactive & easy to use solution
- Increases sales & ROI
- Virtual indoor playground designed for endless entertainment with fun action-packed games
- Captivating, simple & intuitive to use
- No wear & tear on equipment
- Endless hours of easy & safe play
- Encourages children to run, jump & interact with each other
- Fits perfectly in a wide array of establishments

Engrossing and Energetic Fun

Games are designed to give children what they want- lively and vibrant fun. The EyePlay™ Wall works with multiple players who can interact with one another and have a great time.

The EyePlay™ Wall comes complete with a diverse assortment of exciting games. There is truly something to appeal to all children's personal tastes and preferences. The variety of entertainment choices ensures children never get bored or lose interest!

“Our goal is to provide interactive family fun to our guests and EyePlay™ fits in perfectly. We want our guests to think of us as having the most unbelievable, new and fun technology. EyePlay™ certainly fits that description. The response has been fantastic.”

**Scott Hart, General Manager
Ripley's Believe It or Not!**

A Unique Customizable Advertising Solution

EyePlay™ can be leveraged to promote your brand or advertise sponsors with unique interactive effects while games are not being played. Logos can even be inserted within the game architecture to maximize brand equity. This useful function provides you with a versatile and practical way to optimize the use of EyePlay™ for the benefit of your facility.

No Moving Parts and Minimal Maintenance

As there are zero parts to trip on, EyePlay™ Wall is extremely safe. Companies both small and large find that maintenance is truly a breeze. Simply install the EyePlay™ Wall and let the hours of fun begin!
