

## **Trapp Corp. Unites Hosting, Internet and Managed Services Providers**

***New entity brings together ultra-secure cloud, reliable blended Internet service, and experienced staff under all-in-one IT solutions provider***

**Scottsdale, AZ. – February 27, 2014**– Scottsdale-based Trapp Corp., [TrappCorp.com](http://TrappCorp.com), is proud to announce the uniting of Trapp Online, a provider of industry-specific hosting solutions, Trapp Connect, a provider of affordable, super-fast and reliable Internet service for business, and Trapp Tech, an IT professional services company, under a single corporate umbrella. The new legal entity, Trapp Corp., Inc. combines the services and resources of the three companies into a single organization. Trapp Corp. will offer managed on-site, colocation and hosted IT services as well as blended bandwidth Internet and IT consulting to mid-market companies in the U.S. and internationally.

“At Trapp Corp., we have assembled the team who built the advanced Trapp Online cloud and Trapp Connect ISP to bring an incredible level of IT experience and skill to the marketplace,” said David Trapp, CEO, Trapp Corp. “I don’t know of anywhere else you can gain access to people with those capabilities, plus an ultra-secure cloud infrastructure and blended bandwidth all in one company. Whether it’s hosting, Internet or IT consulting and management, customers can get the best of each at Trapp Corp. Our unique combination of expanded services puts Trapp Corp. in a new category of IT service providers.”

Trapp Corp. services are designed to appeal to the growing number of medium-sized businesses looking to outsource more IT infrastructure and application management services. Companies using the assistance of an all-in-one service provider reduce the total cost of ownership and free up internal resources. Trapp Corp.’s skillset is ideal for those businesses looking to quickly complete complex IT projects. Fast, reliable, and redundant Internet service with a 100% network uptime guarantee is an equally attractive part of Trapp Corp.’s offering.

Customers will enjoy extraordinary vendor-neutral and solution-neutral IT managed services and consulting, and carrier-neutral Internet access at competitive prices. The Trapp Corp. skill advantage was created by years of R&D invested to produce the carrier-class network architecture, advanced data security, and blend of top IP carriers that were developed for Trapp Online and Trapp Connect. By leveraging existing relationships with high-level IT industry resources, Trapp Corp. acts as a seamless extension of your company to provide customized IT services.

### **About Trapp Corp.**
