## Day 7

### FULL-DAY EXCURSION TO THE TODOS LOS SANTOS LAKE

In the morning we set out for a full day in the foothills of the Andes. We shall drive along the shore of Lago Llanquihue and enjoy breathtaking views of the volcanoes Osorno and Calbuco. Our first real stop however will be at the Saltos de Petrohue (entrance fee of 2 US\$ unfortunately could not be included for administrative reasons) This series of rapids and waterfalls were formed long ago by the cooling lava from the Volcano still towering behind them. They form an impressive sculpture of extruded volcanic rock shaped by thousands of years of thundering water flow.

Upon arriving at the landing at Petrohue we shall board the catamaran and prepare for our crossing of Lago Todos los Santos. Lago Todos los Santos (All Saints Lake) is surrounded by high mountains whose lower slopes are thickly forested. As we pull away from the landing and the source of the river Petrohue, the view is quickly stolen away by the tremendous size and proximity of snowcapped Volcano Osorno behind us.

The rest of the morning will be spent on the water. To the south, high above the forested shore you will see the peculiar shape of Volcano Puntiagudo and a series of waterfalls. We shall arrive in Peulla (pronounced p-way-a), at the eastern end of the lake around lunchtime. This is the heart of National Park Vicente Pérez Rosales. Here we shall enjoy a lovely hike to the Cascada de la Novia or the Bride's Waterfall amidst native growth "Valdivian Rainforest". In the late afternoon we shall return by boat to Petrohue and back to Puerto Varas.
