

MegaFood™

Fresh From Farm To Powder™

Nutrient Booster Powder™

Add to your favorite smoothie, shake or juice!

Made exclusively with wholesome FoodState® nutrients, phytonutrient packed super foods and botanicals, each carefully selected for their exceptional nutritive and body-protective attributes.*

No added sugars, sweeteners, flavorings, preservatives or food coloring - so you can enjoy the benefits without compromise.

Each serving is bursting with foods such as farm fresh beets, oranges and berries, together with pungent and earthy botanicals. This means it may intensify the natural flavor of any beverage you add it to.

Although people may choose to mix only in water, this product was designed with no flavorings or sweeteners to balance or "alter" the pungent, tart and bitter natural flavors of the aromatic herbs and food inclusions.

Suggested Use:

- Add one scoop or single serve pack to a serving of your smoothie, shake, juice or chilled beverage. Mix or blend well before consuming.
- You can choose to mix in water, however, these powders were not formulated for mixing exclusively in water. There is no added sugar, sweeteners, flavorings, emulsifiers, or fillers, of any kind. Each booster is made with whole herb roots and leaves, tart super fruits and concentrated whole food nutrients, all of which intensify the flavor of any beverage to which it is added. At MegaFood, we believe it is important that you have the opportunity to add your preferred ingredients to enhance the taste and/or texture of the beverage.
- Once the jar has been opened, make sure the lid is sealed tightly, and consume the nutritive powder within 3 months.
