

rSmart Cloud Enterprise for Quali Coeus

Complete, Tailored Sponsored Program and Compliance Management

Research Administration is Challenging

The research and grant landscape for higher education is more challenging than ever with an increased focus on research funding, complex compliance regulations, and demand for oversight and reporting. Yet, many institutions still manage research with paper-based processes, disconnected point solutions, and homegrown databases. A different approach is required, one that fully integrates and streamlines the many tasks involved in pre-award, post-award, and compliance management.

A Complete, Tailored Solution

rSmart Cloud Enterprise for Quali Coeus delivers complete sponsored program and compliance management. Built on open source, community-developed Quali Coeus software, Cloud Enterprise is delivered in our education-focused cloud with added capabilities like out-of-the-box reporting, tailored configuration, and system integration, along with services and support to ensure your success. Streamline administration, maximize research funding, and simplify reporting and compliance with Cloud Enterprise.

Services, Unlimited User Support, and Free Upgrades

rSmart Cloud Enterprise for Quali Coeus includes our advanced services to activate your instance of Cloud Enterprise, deploy with your unique data, and configure based on your research administration processes. rSmart will also provide critical implementation services to get you up and running smoothly and quickly. And, with rSmart, you'll simplify ongoing management with unlimited user support and free upgrades.

Developed and Delivered by Research Administrators

Our solutions are built on open source, community-developed Quali Coeus software which is the best fit for research management because the software is developed and enhanced by the actual colleges and universities that use it everyday. And, because multiple, diverse institutions contribute; the software is nimble, flexible, and evolving constantly to meet the dynamic needs of the higher education research enterprise.

Benefits to You

- **Improve** sponsored programs efficiency
- **Maximize** grant and research funding
- **Automate** proposal routing and approval workflow
- **Easily** manage, track, and report on research compliance
- **Improve** oversight with timely and reliable reporting
- **Reduce** inaccuracies by eliminating paper-based processes
- **Deploy** in the rSmart Cloud for fast, easy, reliable, and cost-effective management
- **Streamline** pre-award, post-award, and compliance

What You Get

Cloud Delivery

rSmart will quickly provision your environment in our proven cloud architecture to accelerate your implementation.

Collaboration, Review, & Approval Workflow

Multiple users can collaborate on a proposal at the same time. Automated workflow speeds approval processes.

Award Management

After award notification, easily create an award document. The proposal budget is linked to the Award and auto-populates proposal information.

Built-in Reporting

Improve oversight and visibility into all aspects of sponsored programs management.

Activation, Configuration, and Training

rSmart will activate your instance, with your unique data, and configured based on your university's processes.

Get Started Today

For 10 years, rSmart has been providing expert technology solutions for higher education, working with over 100 institutions globally. Let us bring our expertise to you. To learn more about rSmart Cloud Enterprise for Quali Coeus, contact rSmart at 1.866.874.4338 or info@rsmart.com.

Proposal & Budget Development

Create proposals anywhere, anytime with online access. Log in with your campus credentials and a web browser.

Proposal Validation, Business Rules, & Grants.gov

Prior to submission, validation and error checking notifies you of any issues. Proposals can be submitted electronically to Grants.gov or sent via email and/or to print.

Compliance Management

Easily manage, track, and report on compliance for COI, IRB, and IACUC.

Tailored Configuration

Powerful business rules and workflows allow for easy software adjustments to meet your specific needs without touching code.

Support and Updates

As part of our subscription services, rSmart provides ongoing delivery of your cloud application services, unlimited user support, and free upgrades.

About rSmart

rSmart, a leader in enterprise resource planning (ERP) software for higher education, empowers colleges and universities to embrace community-driven, open source software. We make Quali ERP software enterprise ready with cloud delivery, enhanced functionality, professional services, and support. Our customers significantly reduce research, financial, and student administration costs through improved processes and freedom from expensive, overly customized, and difficult to maintain legacy and proprietary software.
