* Applicants can rank multiple specialties. In 2014, 2,088 applicants matched to both PGY-1 and PGY-2 positions. 1,740 U.S. senior applicants matched to both PGY-1 and PGY-2 positions.

** Physician (R) positions are PGY-2 positions starting in the year of the Match that are reserved for applicants who have had prior graduate medical education. Physician positions are not available to senior medical students. In previous Results and Data Reports, the numbers of R positions were small and they were included in the categorical position counts. In this report, R positions are listed separately for the entire five-year period.

Physician positions are not available to senior medical students. In previous Results and Data Reports, the numbers of R positions were small and they were included in the categorical position counts. In this report, R positions are listed separately for the entire five-year period.

▲ Denotes that the percentage increase in active applicants for this group was greater than the overall increase of 12.2% for all active applicants between 2010 and 2014.

Note: Match rates are based on all active applicants regardless of their ranking behavior. Therefore, applicants who matched to PGY-1 positions are counted as matched even if they ranked and did not match to a PGY-2 position. Applicants who ranked only PGY-2 and Physician (R) programs are counted as unmatched in this table because they did not match to a PGY-1 position.

* Revised. Applicants matched and unmatched to physician (R) positions were removed from the PGY-1 numbers

▲ Denotes increase/decrease in number of positions filled by U.S. allopathic seniors of more than 10 percent and 10 positions between 2010 and 2014.

* Revised. Physician (R) positions were removed from the PGY-1 positions counts.

** Physician (R) positions are PGY-2 positions starting in the year of the Match that are reserved for applicants who have had prior graduate medical education. Physician positions are not available to senior medical students. In previous Results and Data Reports, the numbers of R positions were small and they were included in the categorical position counts. In this report, R positions are listed separately for the entire five-year period.

* Revised. Physician (R) positions were removed from the PGY-1 position counts.

** Physician (R) positions are PGY-2 positions starting in the year of the Match that are reserved for applicants who have had prior graduate medical education. Physician positions are not available to senior medical students. In previous Results and Data Reports, the numbers of R positions were small and they were included in the categorical position counts. In this report, R positions are listed separately for the entire five-year period.
