

Company Snapshot

EXPERIENCE-DRIVEN KNOWLEDGE AND BEST PRACTICES

Our Specialties

- Storage & Availability
- Compute Virtualization
- Network & Security
- Cloud Computing

Technical Services

- Plan & Design
- Configure & Install
- Project Management
- Technology Validation
- Infrastructure Consulting
- Data Migration

303 Technology (303) empowers client innovation by combining advanced IT solutions with experience-driven knowledge and best practices. Our client-focused team delivers a competitive advantage by reducing business risk, costs and complexity across the enterprise. 303 enables clients to operate with leading-edge, software-defined solutions focused on storage, availability, compute virtualization, network security and cloud optimization.

303 helps their clients reach their maximum potential by eliminating barriers to success and providing the world's most trusted solutions. Our highly motivated and experienced team is passionate about delivering the highest level of technical value, by combining experience, scale and stability with regional expertise, service and support.

303 is owned and operated by VSS, a leading technology solution provider with a 20+ year industry history. This relationship offers 303 unprecedented access to IBM solutions and technology-specific expertise in infrastructure optimization, enterprise mobility and business analytics.

Partnering with industry leaders, **VMware, Cisco, EMC** and **VCE**, 303 provides premier SDx (Software-Defined Everything) services including IaaS, SaaS, ITaaS, Big Data, Cloud, infrastructure and application modernization, virtualization and BYOD. Our portfolio of solutions and services can dramatically improve IT's time to deploy and scale, as well as their financial efficiency, infrastructure utilization and productivity.
