

Nagios World Conference 2014 Fast Approaching – Register Now For Early Bird Pricing

SAINT PAUL, MN (PRWEB) – Nagios Enterprises is excited to announce that early bird registration for the 2014 Nagios World Conference is now open. [Nagios World Conference](#) provides a collaborative atmosphere where IT professionals from across the globe can expand and enhance their network monitoring knowledge base. Access to the world's most successful Nagios event is now available at early bird prices for a limited time.

Early bird registration for Nagios World Conference 2014 is now open and IT professionals from every industry are encouraged to sign-up. Attendees of Nagios World Conference 2014 will be exposed to a plethora of presentations designed to engage discussion, promote collaboration, and unite individuals. In addition, Jumpstart Workshops will provide the foundation for growth and implementation that stretch beyond the walls of the conference.

“Every network infrastructure is unique, but similar obstacles show up across many different industries,” said Mike O’Keefe of Nagios Enterprises. “Our conference provides an opportunity for industry barriers to be broken and common obstacles to be overcome through the exchange of technical expertise.”

Presentation topics for Nagios World Conference 2014 will cover [Nagios Enterprises](#) solutions, Nagios implementations in businesses and organizations of varying sizes, as well as subject matter including:

- New developments and features
- Best practices
- Scalability and distributed environments
- Performance tuning and optimizations
- Mapping and visualization tools

At the 2013 Nagios World Conference, attendees got the opportunity to voice their opinion regarding user feedback, upcoming feature requests, and future product developments in the “Ask Nagios!” presentation. The [2014 conference](#) will include the same opportunity as Ethan Galstad – Founder and President of Nagios Enterprises, and Scott Wilkerson – IT Manager at Nagios Enterprises, provide an open forum discussion where attendees can leave their mark on the path that Nagios takes moving forward.

An attendee from the 2013 conference commented, “The experience was great, the staff were welcoming, and by the end of the conference I felt like part of the Nagios family. The presentations were extremely beneficial and broadened our perspective on how to modify and improve our Nagios implementation.”

Members of the Nagios community who are willing to share their expertise and knowledge are encouraged to submit an application to present at this year's conference. [Call for Papers](#) is open and speaker application are currently being accepted for consideration. Speaking slots for Lightning Talks will also be available for attendees who are eager to share a short demonstration between presentations.

[Early bird pricing](#) for a Nagios World Conference 2014 pass starts at just \$695 and is available through May 31st. Customers who purchase a [Nagios XI](#) license before the conference are eligible for an exclusive discount pass to the 2014 conference at a cost of only \$295.

Nagios World Conference 2014 will take place October 13th - 16th in St. Paul, Minnesota. Comprised of three full days of presentations, workshops, and an evening networking event, the 4th annual Nagios World Conference is shaping up to be better than ever. Register today at go.nagios.com/conference, reserve your spot, and ensure access to the most successful Nagios event in the world.

With multiple awards, over a million users in every vertical and horizontal sector, an active community, and thousands of add-ons and extensions, Nagios is the industry standard in IT infrastructure monitoring. Nagios provides critical monitoring and alerting for networks, systems, applications, metrics, and business processes.
