

Large Screen Splicing System Market in China 2014-2018 Research and Investment Prospects Discussed in New Report Available with ReportsnReports.com

ReportsnReports.com offers "Research and Investment Prospect of Large Screen Splicing System Market in China, 2014-2018" industry report in its store.

Research and Investment Prospect of Large Screen Splicing System Market in China, 2014-2018 report estimates that the annual growth rate of large screen splicing system market scale will be around 10% from 2014 to 2018. The market scale will reach CNY 6.73 billion in 2014, and it will approach to CNY 10 billion in 2018. Complete report is available at <http://www.reportsnreports.com/reports/278272-research-and-investment-prospect-of-large-screen-splicing-system-market-in-china-2014-2018.html> .

This research mainly analyzes market status of large screen splicing system both in China and overseas, supply and demand, business performance of major domestic and foreign enterprises, meanwhile offers suggestions for large screen splicing industry, so as to make entrepreneurs get a better understanding of this industry and make a wiser decision with the help of the investment references.

In 2013, the overall scale of China's large screen splicing market amounted to CNY 6.15 billion with a growth rate of 145%, suggesting an unceasingly high speed of development in the future. In the aspect of output, in 2009, the total yield of large screen splicing system reached 77,900 sets, and in 2013, the number was 133,500 sets and increased 71.4%.

From the perspective of manufacturers among competition, the high-end market is still dominated by BARCO, Mitsubishi, and VTRON. While in the low-end market, China's enterprises that engaged in are mainly GQY, LANBO, Triolion, Truecolor, Display, and Vation China, etc.

Company profiles, business performance analysis and competitive analysis for VTRON Technologies Ltd., Tsinghua Unisplendour Co., Ltd, Ningbo GQY Video & Telecom Joint-Stock Co., Ltd, SALL Electronics System (Shanghai) Co., Ltd, Beijing Triolion Science & Technology Co., Ltd and Beijing Universal LanBo Technology Co., Ltd are provided in Research and Investment Prospect of Large Screen Splicing System Market in China, 2014-2018.
