

The Amazing! NOK OUT Disinfectant & Odor Elimination System is effective for use in:

Autos: Spray NOK OUT on upholstery, headliners, and in trunks; circulate NOK OUT throughout your vehicles' ventilation system; eliminating odors such as cigarette smoke, pet odors, and detailing chemicals. Use NOK OUT Carpet Shampoo & Upholstery Cleaner to refresh your upholstery and give a brand-new look to your vehicle.

Child Care Facilities: See Church Nursery Applications

Churches: Disinfectant your drinking fountains, bathrooms, and kitchens. When the cold and flu season strikes, spray NOK OUT in your sanctuary (see **Heating and Air Conditioning Uses**); eliminate those germs before they get a chance to spread.

Church Nurseries: Spray changing tables, diaper pails, toys, highchairs, potty chairs, baby swings, cribs, and crib mattresses. Moreover, disinfect your nursery's bathroom by spraying NOK OUT on the toilet seat, handle, lid, rim, and around the base where germs and odors lurk; let sit 10 minutes and wipe off excess using a damp paper towel. After church, spray NOK OUT in the nurseries, eliminating the air-borne germs that can cause illness. Use NOK OUT's Carpet Cleaning formula to remove the stains, destroying the germs and odors in your nursery's carpet caused from urine, diarrhea, and vomit. After an "accident" spray the area and brush it in. You will be Amazed! at the difference. Completely safe and non-toxic (See MSDS for additional information.)

Elderly Care and Sickrooms: Spray the Amazing! NOK OUT Broad Spectrum Disinfectant on wheel chairs, prosthetic devices, ostomy bags, bed rails, garbage pails, and plastic bed covers, killing the germs that cause the odors. Spray NOK OUT on bedsores, killing germs to aid in healing. Spray NOK OUT in the air to eliminate the noxious odors and air-borne germs that are so prevalent in sickrooms. Use in a vaporizer – 8 oz. NOK OUT per gallon of water. Use as a mild cleansing agent on floors, countertops, and walls – 8 oz. NOK OUT per gallon of water. For use as a sanitizing agent: 1 part NOK OUT to 1 part water. Use NOK OUT Carpet shampoo to remove stains, germs, and odors caused by sick room "accidents." NOK OUT BSD is laboratory proven to kill MRSA, C-difficile, H1N1 Virus, and a host of other bacteria and viruses. (See our Technical Page for certification.)

Heating and Air Conditioning: Use in air duct and air-handling systems: spray clean filters with a fine mist, dampening the surface, replace as usual. Spray around the vents and into the ductwork if possible; add to cooling towers. NOK OUT is laboratory-proven to kill Legionnaires Disease – a bacterium spread through the buildings' ventilation and water handling systems.

Hospitals, Nursing Homes: See Elderly Care and Sickrooms

Household: Using NOK OUT's Broad Spectrum Disinfectant throughout your home will *simplify your life, save you money, and secure your peace of mind*. No longer will you need to use a host of household products marketed to eliminate odors, such as air fresheners (that only serve to cover the odor, not eliminate the source), sanitize, and deodorize kitchen and bathroom areas and surfaces, destroy mold and mildew. Use as a mild cleansing agent on floors, countertops, and walls – 8 oz. NOK OUT per gallon of water. For use as a sanitizing agent: 1 part NOK OUT to 1 part water. Give your home that fresh, rain-washed feeling by spraying draperies and upholstered furniture with a fine mist of NOK OUT (test first for color-fastness). Use NOK OUT Carpet Shampoo to remove stains, germs, and odors from carpets. Use NOK OUT Pet Shampoo to keep your pets clean and odor free, eliminating the "pet smell" from your home. NOK OUT's Broad Spectrum Odor Elimination System Product line will help to eliminate some confusion from your life! Use NOK OUT on your laundry to disinfect colored clothes, spray the inside of your shoes and boots to destroy the fungus that cause athlete's foot, and associated odors. Spray your children's athletic equipment, killing germs such as MRSA, and eliminating odors. Where germs and odors are a problem, NOK OUT is the sustainable answer!

Hunting and Fishing: Spray NOK OUT on yourself and your hunting gear before a hunt... NOK OUT eliminates the "human odor"; your prey will not fear what they cannot smell.

Detention Centers: Spray the Amazing! NOK OUT Broad Spectrum Disinfectant on garbage cans, beds, rails, cell bars, toilets, sinks and shower facilities; killing the germs that cause the odors. Disinfect the kitchen and food prep areas, as well. Spray NOK OUT in the air to destroy air-borne bacteria and viruses, thus helping to eliminate the noxious odors that are so prevalent in these facilities. NOK OUT BSD is laboratory proven to kill MRSA, C-difficile, H1N1 Virus, and a host of other germs. (See our Technical Page for certifications.)

Janitorial Services: Utilizing NOK OUT's Broad Spectrum Disinfectant and Odor Elimination System products assures you, your company, and your customers the best and most effective treatment against germs and odor that the 21st Century has to offer. Use as a stand-alone cleaning solution or add to your *existing solution to clean walls, floors, bathrooms, and anywhere else. Be sure and use NOK OUT's Carpet Shampoo for carpet cleaning, spot, and stain removal, and general carpet maintenance. Where germs and odors are a problem, NOK OUT is the sustainable answer! (See general uses for all listed types of facilities.) *Not compatible with acid-based cleaners, see MSDS for details.

Pets: Stretch your kitty-litter dollar by treating the litter with NOK OUT. Remove the organic matter, and spray. NOK OUT keeps your kitty's bathroom area smelling fresh! In between shampoos with NOK OUT's Pet Shampoo formula, spray your pooch with NOK OUT, rubbing it into their fur, keeping them smelling fresh and clean. Make sure that you use NOK OUT Carpet Shampoo Spot and Stain remover for all those annoying little problems that come with having pets! (Completely safe and non-toxic – see NOK OUT's MSDS).

Property Management Custodial Services: for Motels, Hotels, Apartments: Spray NOK OUT on upholstery, drapes and in the air to make whatever room you are renting out smell like brand-new! NOK OUT takes the cigarette smell out of your room to make it smell cleaner than ever before! Need to shampoo your carpet and upholstery? NOK OUT Carpet Shampoo is the answer. **See Janitorial Services for additional suggested uses.**

Recreational Vehicles: For use in holding tanks to eliminate odors caused from germs. Filter through the ventilation system for general odor elimination, helping to remove the musty, mildew odors from closed areas, especially in bathrooms where odors and germs are lurking! Use NOK OUT Carpet and Upholstery Shampoo to give your RV a better-than-new smell! Just spray NOK OUT Carpet Shampoo on your upholstery and brush! It cleans right before your eyes!

Schools, Colleges, Athletic Programs: When sickness spreads through your school or college, NOK OUT is the answer. Spray the air to eliminate the air-borne germs, spray surfaces to keep the germs from being spread by hand contact. NOK OUT is the answer for all your cleaning and odor elimination needs. Use in the locker room to disinfect the area, equipment and shower facilities. Use NOK OUT Carpet Shampoo to remove germs, stains, and odors. NOK OUT is the 21st Century's answer to all your disinfecting and odor elimination needs. See **Janitorial, Heating & Air Conditioning, and Household Uses** for additional suggestions.

Smoke Odors: To eliminate odor in a smoker's room, use in a vaporizer - eight (8) ounces of NOK OUT per gallon of water. Operate it in the room as needed (up to 4 hours at a time). This method works well in any area that has air-borne odor problems, including animal smells. Spray NOK OUT in the corners and crevices, on baseboards and door facings before the vaporizer is run if the odors are persistent and old.

In closets where smoking odors have collected on clothing, bedding, linens, blankets, etc., air out the articles (perhaps washed, adding 8 oz. of NOK OUT to the rinse cycle to eliminate the odor). Spray the interior of the closet with NOK OUT. Pay particular attention to corners, baseboards, and crevices of the closet where odors collect. Note: Always test clothing and other articles first; although NOK OUT is color fast, it is prudent to test first.

Veterinary Clinics, Kennels, and Grooming Facilities: NOK OUT is safe for all surfaces. Spray the waiting room and examination areas with NOK OUT Broad Spectrum Disinfectant to keep germs from spreading. Use on pet carriers, cages, grooming tables, and any area that germs and odors may lurk. NOK OUT removes skunk odor from the pet as well as the exposed surface area. See NOK OUT's Pet Shampoo uses for the best in coat and grooming care. (Completely safe and non-toxic – see NOK OUT's MSDS).

REMEMBER: NOK OUT is an oxidizer and will always work when it meets the **source of the odor.**
