

# Attention Parents!

Learn How Your Student Can Prepare for a High-Tech Career with Paid Internships, High Salaries, and Many Job Openings

*Is your son or daughter unsure of a career path after high school?  
Does he or she enjoy problem solving and have a knack for working with their hands?*

*Or maybe you are looking for a new career field for yourself?*

You or your high school student may be a perfect candidate for the *Steelworker For The Future*<sup>®</sup> program, a partnership between Moraine Valley Community College and ArcelorMittal, one of the world's leading steel and mining companies. Moraine Valley is one of only two colleges in Illinois to offer this exciting opportunity as part of the college's Integrated Systems Technology degree program.

***You and your student are invited to learn more!***

## Information Session

**Monday, April 7, at 6 p.m.**

Moraine Valley Community College  
Building M, Moraine Room 1  
9000 W. College Pkwy., Palos Hills
