

ERP Software & Professional Manufacturing Services Specialist to Exhibit at SME's MFG4 Show

ProfitKey International, a leading provider of manufacturing Enterprise Resource Planning (ERP) software and professional services, announced today that they will be exhibiting at the [Society Of Manufacturing Engineers' \(SME\) MFG4 show](#), May 6-8 at the Connecticut Convention Center in Hartford, CT. The MFG4 trade show focuses on the aerospace, defense (including arms), medical, and micro manufacturing industries. ProfitKey can be found at [booth # 1312](#).

ProfitKey's proprietary software, [Rapid Response Manufacturing \(RRM\)](#), is geared towards small to mid-sized businesses (SMBs) manufacturers and job shops, with a major focus on the aerospace, defense and medical fields, but is also flexible amongst a wide array of industries. With its fully integrated ERP, Manufacturing Execution System (MES), and quality management, RRM strives to help improve overall business processes, reduce costs and increase profits. ProfitKey's full ERP suite will be on display and available for demonstrations throughout the show.

RRM is the industry's first fully-integrated ERP and MES software solution and offers complete order-to-bill management capabilities. This powerful system can be configured to meet your organization's specific needs, is easy to install and use, and has tremendous functionality with complementary modules, including a complete financial accounting and reporting system.

If you are planning on attending, ProfitKey has a limited amount of free guest passes. [Inquire here](#) to find out how you may receive yours. The ProfitKey booth will also be staffed with employees encompassing more than 20 years of manufacturing knowledge and experience. Be sure to add booth 1312 to your expo plan.

About ProfitKey
