

INTRODUCING THE
marimba one
*Izzy*TM

SOUND INNOVATION

The sound of the *marimba one Izzy*TM. represents the culmination of over 30 years of keyboard and resonator voicing experience.: harmonic filters on our resonators for better harmonic balance, updated resonator tuning to maximize sound potential, and voicing options on both our resonators and keyboards. Our endless quest for the most musical and beautiful sounding marimba leads to the *marimba one Izzy*TM.

HIGHLY ENGINEERED FRAME

The complete re-design of the end frames and rails on the *marimba one Izzy*TM. includes refinements never before been seen on marimbas. From our hybrid aluminum-wood rails with laser engraving to the highly durable frame hardware—The *marimba one Izzy*TM. is in a class all its own.

EASY HEIGHT ADJUSTMENT

Our state-of-the-art pneumatic height adjustment system is functional and durable--never slips, easy to use. Built-in tape measures insure your preferred keyboard height. We only use US-grade certified hardware on our marimbas which are 100% made in Arcata California, USA.
