

**PRESS RELEASE
FOR IMMEDIATE DISTRIBUTION:**

Vantec Add a New Series of Aluminum Smart Charging USB 3 Hubs for Mobile Devices.

The New USB 3.0 Hubs offer easy connection to multiple USB 3.0 devices and smart charging ports optimized for smartphones and tablets.

FREMONT, California, USA – May 1, 2014 – Vantec Thermal Technologies—a worldwide leader specializing in computer accessories, storage and mobile solutions—announces a new Series of USB 3.0 hubs designed for multiple USB 3.0 devices and are equipped with smart charging ports for power hungry smartphones, tablets, or other mobile devices.

This new series of USB 3.0 Hubs simplify and consolidate all your USB 3.0 and mobile devices into one easy to reach location. With its sturdy industrial-grade design, the hub is constructed in a solid aluminum alloy casing. To safeguard connected devices, a Premium Certified Power Adapter is included to provide maximum power to all ports for simultaneous usage with Power protection. Connected devices are automatically detected and charged at full speed with the built-in smart charging function.

All Hubs come with standard anti-slip rubber feet, clear LED status, UASP support, and are Plug and Play with no drivers needed for Windows, OS X and Linux. It is available in 10 or 7 USB 3.0 ports and the smart charging models come in 9 ports with one DCP 2.1A, 7 ports with one DCP 1A and 2.1A, and 4 ports with two DCP 1A and one 2.1A.

This series of USB 3.0 Hubs will be available on the market this May, 2014. For additional [product information](#) and full technical specifications, please visit www.vantecusa.com.
