

The Generator

Power Up Your Training

GeT Interactive On-Demand eTraining

globletraining.ca | getstarted@globletraining.ca

Your Enterprise Knowledge Management Platform

Imagine extracting your organization's corporate knowledge from its subject-matter experts directly into an effective training and communication template that is rolled out immediately across the organization, across the globe and across time zones.

Your people learn it - they remember it - and they quickly and easily access it when the project needs arise. Forget the days of trainers traveling from office to office to deliver the same training at every site, or investing time in linear videos, webinars and memos, only for the knowledge to vanish when it's needed most.

The Generator

An exceptionally effective authoring and publishing tool, The Generator is a cloud-based software that connects subject matter experts to a collaborative course building process. The intuitive drag-and-drop user interface is so easy to use that specialized skill sets in eLearning design and educational methodology, or courses on how to use the software, simply aren't needed. Knowledge management no longer needs to be a complex process. Now anyone can effectively and professionally communicate their proprietary knowledge through Global eTraining's proven course templates and scalable platform.

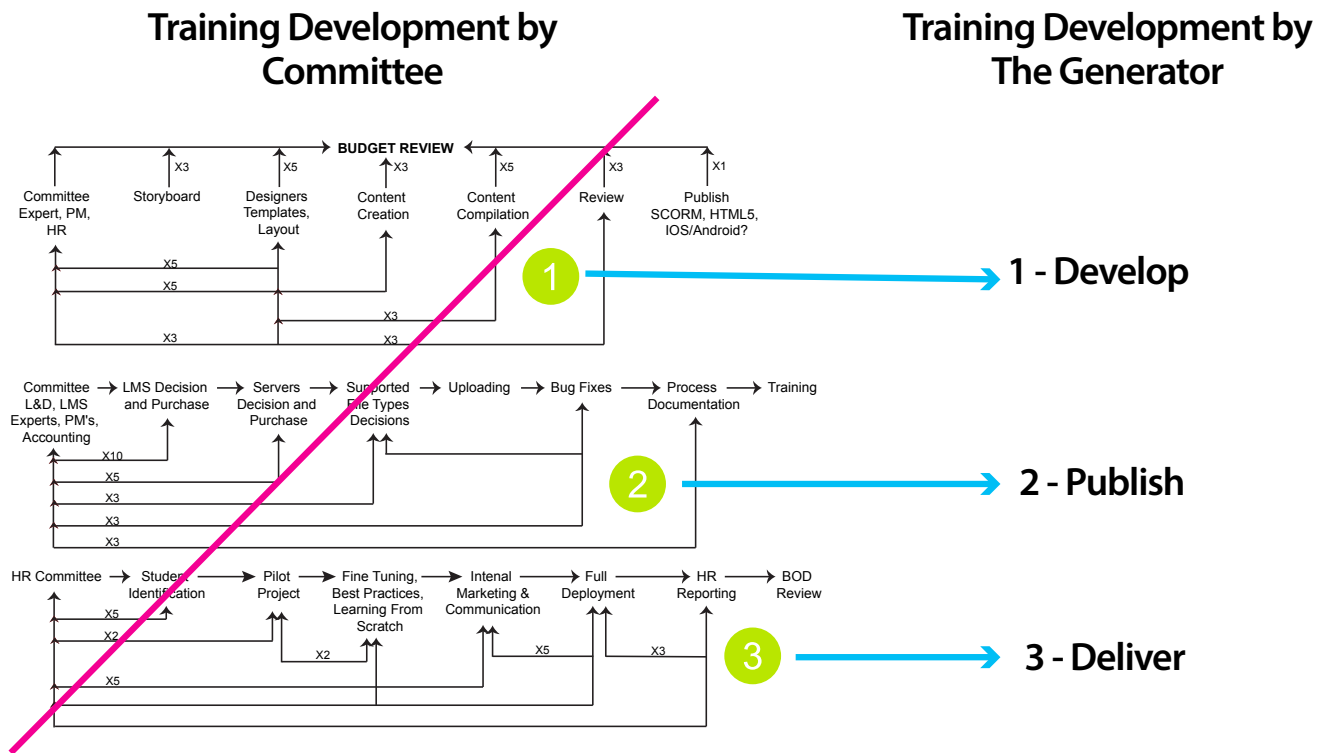

The result: highly effective, interactive and mobile eTraining ready for delivery.

Custom eTraining Development

Power past all the online learning development challenges so many others have faced before you.

- Skip the committees.
- Upload the knowledge straight into the course framework.
- No need to learn complicated software tools.
- Bypass technical limitations.
- GeT it rolled out right when it's needed.

It doesn't have to be that difficult. In fact, with The Generator, it can be easy as 1-2-3!

Now you can effectively and efficiently capture and share your proprietary knowledge. GeT ahead of your competitors by developing and publishing your own interactive custom courses with The Generator from Global eTraining, the worldleaders in technical training.

As Easy as 1-2-3

The Generator provides a straightforward knowledge management process to develop effective courses that embrace all learning styles and make best use of your training dollars.
