# Scytl Online Voting

Offers numerous advantages over traditional paper balloting, including easy access for absentee & overseas voters.

Scytl Online Voting enables voters to securely and easily cast their vote from any location and on any device with Internet access. Internet voting enfranchises all voters, including remote voters (overseas, military, etc.), while ensuring privacy and results integrity, reducing the costs involved with conducting an election and ensuring that ballots are free from tampering.

Scytl's voting receipts, digital signatures, and data encryption have been certified by twelve countries and are successfully used in numerous elections across the globe.

- Online voting leadership & experience: 90% of binding online elections worldwide.

- Internationally audited platform with voter self-verification, adapted for voters with disabilities.

- Available on Google Android, Apple iOS, and Blackberry.

- Results integrity, voter privacy and immutable logs, fully auditable.

> *We integrated Scytl's electronic voting solution into our eGovernment platform. This innovative solution has demonstrated its high security and flexibility levels. Scytl has provided us not only with a product, but also with a very competent team that has allowed us to set up a really innovating experience for our voters."*

Scytl e-Election Platform
Modular, integrated and secure end-to-end election management and voting platform.

Pre-Election
Scytl's solutions assist election administrators with the planning, organizing and training activities that accelerate as each new Election Day approaches. With a wide variety of software solutions, Scytl provides efficiencies built specifically for elections and the officials that conduct them.

Election Day
During Election Day, the most critical period of the election cycle, any number of issues can arise. Through our voting and help desk solutions, election officials can rest assured that the most robust and user-friendly tools are being utilized. Whether in-person or remotely, voters will experience a state-of-the- art interface to cast their ballot and the resources to identify and answer questions.

Post-Election
After Election Day, work is far from over. This is where some of the most important steps take place to ensure accuracy and effectiveness of the voting system, aggregate and present election results for public consumption, and use the information learned from this election to make the next one even better.
