Growth drives Bellin College to select Three Rivers Systems' 'disruptive' CAMS Enterprise as its new academic ERP

St. Louis — May 14 , 2014 — Bellin College, in Green Bay, one of Wisconsin's leading nursing schools, has selected Three Rivers Systems Inc.'s "disruptive" CAMS® Enterprise academic ERP to help ready the institution for anticipated growth, the company announced today. CAMS Enterprise was selected in favor of Jenzabar and to replace SonisWeb.

Driven by a strong desire to track and report data, Bellin's selection committee focused considerable attention on the Business Analytics features of CAMS Enterprise. According to Bellin College President and CEO Dr. Connie J. Boerst, EdD, RN, CAMS Enterprise offers power, simplicity and total cost of ownership unmatched in the marketplace. "As we proceeded down the path of due diligence, it became extremely clear to us that Three Rivers System's offering made the most sense for us," she said.

Dr. Boerst said the company articulated its business case persuasively, clearly indicating its alignment with Bellin's mission and values.

"We prepare health-care professionals by providing an intellectually stimulating environment focused on leadership, community service and lifelong learning to promote excellence in health care," she said. "CAMS Enterprise gives us a powerful suite of services to lighten our administrative burden, thus allowing us to focus on learning experiences that enrich our students' application of critical thinking necessary for success in today's ever-changing health care settings."

Three Rivers Systems Vice President of Global Sales and Marketing Jami Morshed agrees. "We strive to make a comprehensive academic management solution that liberates colleges and universities from the administrative labyrinth of patchwork software systems. Our mission is to empower people to succeed and achieve their educational goals and dreams," Morshed said. "Bellin College graduates make a difference in their profession, the community and society at large through lifelong learning and embracing their role as leaders in health care."

Morshed added that Three Rivers Systems works hard to offer a solution allowing institutions of higher education of all sizes and all Carnegie categories around the world to expend their energies on learning and the common good in partnership with their communities — so they are not forced to spend precious resources on unnecessary administrative software and can say good-bye to outmoded systems.

—more—

"With CAMS Enterprise institutions automate their entire student lifecycle, including manual business processes, which allows them to conduct instantaneous sophisticated business analysis so important to today's strategic planning initiatives," he said.

In addition to Bellin College, Three River Systems serves a wide range of health sciences institutions including Albany College of Pharmacy and Health Sciences, Baylor College of Medicine, Cox College, Hondros College, Kettering College of Medical Arts, Los Angeles County College of Nursing and Allied Health, National University of Health Sciences and New York Chiropractic College.

About Bellin College
Founded in 1909, Bellin College, in Green Bay, Wis., has a distinguished record of providing students with a quality education for the demands of the rapidly changing healthcare environment. Bellin College offers a BSN program, Master of Science in Nursing and a Bachelor of Science in Radiologic Science degree. Its BSN program received accreditation in 1989 from the Council for Baccalaureate and Higher Degree Programs of the National League for Nursing and from the Commission on Institutions of Higher Education of the North Central Association of Colleges and Schools. The college is a separately incorporated, not for profit, entity of Bellin Health System, Inc., a multi-faceted healthcare organization.

About CAMS Enterprise
CAMS Enterprise's disruptive technology makes it a fundamentally different academic ERP unlike all others that were designed for the past and are incapable of operating efficiently in the modern world. CAMS Enterprise is an easy-to-use and implement, totally integrated, Web-native management system with everything in one place — admissions; student information; financial aid; student services; fiscal management with HR and payroll; fund-raising; alumni relations; document management, learning management, a full suite of portals, and more for managing the entire student life cycle. With an out-of-the-box configuration and self-service customization, CAMS Enterprise removes all barriers to success seen with conventional systems. CAMS' affordable licensing, off-the-shelf configuration and easy implementation translate into the lowest total cost of ownership of any academic ERP while yielding the quickest and highest ROI.

About Three Rivers Systems Inc.
Three Rivers Systems Inc. is the only privately held, independent, debt-free, one-stop company focused solely on high-quality academic ERP solutions exclusively for higher education institutions of all sizes. For more than 25 years from its St. Louis headquarters, the company is keenly focused on innovation and service to its worldwide customers. Always innovating, the company invests significant revenues back into product R&D to improve existing products while developing new ones so users always get the exact functionality, industry experience and accurate project management they need. Its business model and products are designed to ensure institutional effectiveness, more-efficient business processes, student success and satisfaction.
