

Juice Bar is the Most Customizable EV Charging Station

At Juice Bar we have a client focused approach; we are about providing owners choice.

Attract the growing market of EV customers and create a premium income-producing asset for your facility.

Designed with BMW Designworks, the highly visible Juice Bar charging stations are more than just pieces of equipment; they're a charging experience and a billboard of sustainability.

JUICE BAR EV

Owners have the choice in customizing their Juice Bar to fit the needs of their facility, including the ability to partner with sponsors and advertisers to offset the cost, and the choice in charging a fee or not charging a fee to the consumer. We are about providing owners with the option best suited for their overall business objectives and budget.

As the electric vehicle industry looks for new ways to pay for charging stations, Juice Bar EV chargers provide a “Billboard of Sustainability” for owners to offset purchase and installation costs of EV charging stations.

With flexible terms and payment options, facility owners can acquire a charging station for as little as \$299 per month

Our partnership with Macquarie Financial provides facility owners the choice to conserve cash and free up capital for other critical priorities. With our flexible terms and payment options owners can acquire a charging station for as little as \$299 per month, or the ability to create a custom tailored solution to fit overall business objectives and budget.

CHARGERS

JUICE BAR QUAD

Each Quad includes 2-Level 2 Chargers and 2-Level 1 Chargers, and charges up to 4 cars simultaneously.

JUICE BAR DOUBLE

Each Double includes 1-Level 2 Charger and 1-Level 1 Charger, and charges up to 2 cars simultaneously.

DC LEVEL 3 FAST CHARGER

Our Level 3 includes both the CHAdeMO and the SAE Combo connector.

Fastest charging possible:
30% to 80% in 15 minutes

GREEN GARAGE OASIS

Juice Bar® EV Charging Station

Offer your customers a Premium Charging Experience with our Dual Port DC Level 3 Fast Charger, our Quad that has 4 charging ports or our Double with 2 charging ports. Optional Point of Sale & Communications system available.

Tire Inflation Station

The EPA estimates that we can improve our gas mileage by up to 3.3 percent by keeping our car's tires inflated to the proper pressure.

Commercial Vacuum

The perfect amenity to the Oasis package, this commercial grade vacuum is an added convenience for your patrons. Customize it with your logo.

Oasis Murals

Add the final touch to your Green Garage Oasis® with professionally designed artwork. Add your logo & name, call attention to the amenities.

Recycle Bins

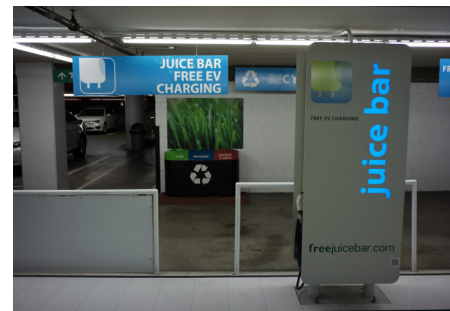

People will recycle their bottles or newspapers, they just need a place to recycle them. This is an easy solution to increase recycling.

LED Lighting

Highly efficient and more effective than traditional lighting, LEDs will reduce your lighting bill up to 80% and last longer than alternative lighting solutions.

RaceDeck™ Flooring

A super tough, high gloss modular garage flooring system that is easy to install. RaceDeck™ captures attention, and makes sure your social responsibility gets noticed.
