iPatientCare EHR Selected as 10th Most Popular EHR Software Solution in 2014

iPatientCare takes pride in announcing the inclusion of iPatientCare EHR on Capterra's list of 20 Popular EHR Software

iPatientCare, Inc., a pioneer in mHealth and cloud based ambulatory EHR, Integrated Practice Management and Patient Portal Solutions, takes pride in announcing the inclusion of iPatientCare EHR as one of the nation's Top 20 list of the Most Popular Electronic Health Records Software for 2014. Capterra recently released the 2014 ranking of the leading EHR solutions measured by a combination of their total number of customers, users, and social presence. iPatientCare EHR moved two slots from its number 12 ranking in 2013.

Electronic Health Record (EHR) software gives medical professionals access to patient medical records from a centrally-accessible system. With a market size estimated to hit $6 billion by 2015, growing at a rate of over 16% per year, EHRs typically include medical history, laboratory results, medication, allergies, and even billing information to help create a more streamlined process for patient care.

iPatientCare has evolved as a scalable and highly available application platform that integrates Meaningful Use Stage 2 certified ambulatory and inpatient EHR, professional and institutional billing system, patient portal, health information exchange, and mHealth suite.

"iPatientCare has succeeded in business by delivering solutions that were designed by users to be friendly and intuitive, the rating reflects the growth in our customer base due to iPatientCare robust EHR and practice management software which is designed as per needs and workflows of Physicians offices," said Pranav Patel, General Manager, iPatientCare.

"iPatientCare is committed to transforming healthcare delivery clinically and financially, and helping our users expeditiously adopt Meaningful Use is a step in that direction. These industry achievements signify the commitment from the iPatientCare team, and our EHR to stand behind our guarantee of getting our customers the stimulus money quickly and efficiently", said Udayan Mandavia, President/CEO, iPatientCare.

About iPatientCare:

iPatientCare, Inc. is a privately held medical informatics company based at Woodbridge, New Jersey. The company is known for its pioneering contribution to mHealth and Cloud based unified product suite that include Electronic Health/Medical Record and integrated Practice Management/Billing System, Patient Portal/PHR, Health Information Exchange (HIE), and mobile point-of-care solutions that serve the ambulatory, acute/sub acute, emergency and home health market segments.

iPatientCare EHR 2014 (2.0) has received 2014 Edition Ambulatory Complete EHR certification by ICSA Labs, an Office of the National Coordinator-Authorized Certification Body (ONC-ACB), in accordance with the applicable eligible professional certification criteria adopted by the Secretary of Health and Human Services (HHS).

Full certification details can be found at **ONC Certified Health IT Product List.**

The ONC 2014 Edition criteria support both Stage 1 and 2 Meaningful Use measures required to qualify eligible providers and hospitals for funding under the American Recovery and Reinvestment Act (ARRA).

The company has won numerous awards for its EHR technology and is recognized as an innovator in the field, being a pioneer to offer an EHR technology on a handheld device, an innovative First Responder technology to the US Army for its Theatre Medical Information System, the first to offer a Cloud based EHR product. iPatientCare is recognized as one

of the best EHR and Integrated PM System for small and medium sized physicians' offices; has been awarded most number of industry Awards; and has been recognized as a preferred/MU partner by numerous Regional Extension Centers (REC), hospitals/health systems, and academies.
