

## Portable Industrial Grade Lighting Designed Specifically for the Aerospace Maintenance, Repair, and Overhaul Industries

### Now Available in SMD LED!

Portable, Feed-Through Lighting Systems

*3,200 lumens/40 watt*

*7,200 lumens/80 watt*

*Daisy Chain up to 20 LED Quad Lights together*

### ***Drop them and stomp on them!***

The extremely durable Quad Light is a KH Industries' exclusive - no other light is this durable.

The Quad Light was designed specifically to meet rigors of the aerospace industry. Now, with the addition of SMD LEDs the light is virtually unbreakable.

The Quad Light's durability comes from a multi-level lamp protection system which includes rubber end caps, field tested lamp shock absorbers, polycarbonate tube shields, and new SMD LED bulbs.

The new generation of surfaced mounted (SMD) LEDs feature a longer bulb lifespan, lower power consumption, and are more durable than traditional fluorescent.

Because of the low amperage draw, up to 20 LED Quad Lights can be daisy chained together for a continuous feed through lighting system, ideal for illuminating an entire fuselage.

### ORDERING INFORMATION

KH Quad Lights are available from KH Industries.
