Far more efficient than competing wireless inductive charging technologies, FUEL iON is a full power solution that magnetically secures your device and charges as fast as a cord connection.

At the heart of FUEL iON's charging system is a robust magnetic power transfer pad that uses incredibly strong neodymium magnet technology to automatically secure your phone by simply making contact with the power base. Once the FUEL iON case is securely docked, it not only charges but also provides a seamless snap to position rotational axis for viewing your phone in vertical or horizontal orientation. The FUEL iON Charging Car Mount has built in circuit protection against over voltage, over current, leakage and short circuit comes backed by a 2-year warranty.
