FUEL ION IPHONE® 5/5S CASE WITH CHARGING STAND

50 Word Description:

Designed specifically for Apple's flagship smartphone, the FUEL iON case and charge base kit for the iPhone® 5/5s creates a revolutionary way to charge without the hassle of constantly plugging and unplugging power cords. The case offers edge-to-edge protection and easy access to buttons and ports, while the charge base magnetically connects to the case to wirelessly charge the phone.

100 Word Description:

Designed specifically for Apple's flagship smartphone, the FUEL iON case and charge base kit for the iPhone® 5/5s creates a revolutionary way to charge without the hassle of constantly plugging and unplugging power cords. The case offers edge-to-edge protection and easy access to buttons and ports, while the charge base magnetically connects to the case to wirelessly charge the phone.

At the heart of FUEL iON's slim, stylish and fully protective case is a robust magnetic power transfer pad that uses incredibly strong neodymium magnet technology to automatically secure your phone by simply making contact with the charge base. Once the FUEL iON case is securely docked to the base, it not only charges but also provides a seamless snap to position rotational axis for viewing your phone in vertical or horizontal orientation.

FUEL iON is far more efficient than competing wireless inductive charging technologies by connecting magnetically to secure your device and charge as fast as a corded connection. This kit has built-in circuit protection against over voltage, over current, leakage and short circuit and comes backed by a 2-year warranty.
