

Initial Announcement

International Summit on

Industrial Engineering

San Francisco, USA December 08-10, 2014

Dear Colleagues,

OMICS Group is delighted to welcome you to San Francisco, USA for the prestigious International Summit on Industrial Engineering. Industrial Engineering-2014 will focus on "Global Approach for Industrial Engineering." We are confident that you will enjoy the Scientific Program of this upcoming Conference.

We look forward to see you at San Francisco, USA.

With Regards, Industrial Engineering-2014 Organizing Committee OMICS Group Conferences

Luis Rabelo

University of Central Florida, USA

Viliam Makis

University of Toronto, Canada

Ilkka Kauranen

Aalto University, Finland

Alexandar Djordjevich

City University of Hong Kong, China

Etsuji Tomita

University of Electro-Communications, Japan

Liang Liang

University of Science and Technology, China

Hamid Khayyam

Deakin University, Australia

Qatar University, Qatar

Zahra Kadivar

Baylor College of Medicine, USA

Rene V. Mayorga

University of Regina, Canada

Programme Announcement

Venue

DoubleTree by Hilton Hotel San Francisco Airport 835 Airport Blvd., Burlingame California, 94010-9949, USA Tel: 1-650-344-5500

Fax: 1-650-340-8851

Important Dates

Abstract submission opens: January 14, 2014
Registration opens: January 21, 2014
Early bird registration: June 23, 2014
On spot registration: December 08, 2014

Accommodation

A large number of rooms have been reserved. Discounted room rates for Industrial Engineering-2014 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Congress. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Industrial Engineering.

About San Francisco

San Francisco, officially the City and County of San Francisco, is the 4th most populous city in California and the 12th most populous city in the United States, with a 2008 estimated population of 808,977. The only consolidated city-county in California, it encompasses a land area of 46.7 square miles (121 km²) on the northern end of the San Francisco Peninsula.

Today, San Francisco is a popular international tourist destination, renowned for its chilly summer fog, steep rolling hills, eclectic mix of Victorian and modern architecture and its famous landmarks, including the Golden Gate Bridge, cable cars, and Chinatown. The city is also a principal banking and finance center, and the home to more than 30 international financial institutions, helping to make San Francisco 18th place in the world's top producing cities, 9th in the United States, and 15th place in the top twenty Global Financial Centers. San Francisco is unique in that a few of its parks and nearly all of its beaches within city limits form part of the regional Golden Gate National Recreation Area, which is one of the most visited units of the National Park system in the United States, with over 13 million visitors a year. It is also one of the largest urban parks in the world. The beaches and parks that form the Golden Gate National Recreation Area in San Francisco include Ocean Beach that runs along the Pacific Ocean shoreline and is frequented by a vibrant surfing community; Baker Beach which is located in a cove west of the Golden Gate and part of the former military base, the Presidio. Within the Presidio is Crissy Field, a former airfield that was restored to its natural salt marsh ecosystem. The GGNRA also administers Fort Funston, Lands End, Fort Mason, and Alcatraz. The National Park Service also separately administers the San Francisco Maritime National Historical Park-a fleet of historic ships and waterfront property around Aquatic Park.
