

## **Eastman Park Micrographics (EPM) Introduces New IMAGELINK Professional Film**

***As part of its relationship with Agfa, Eastman Park Micrographics (EPM) launches a new family of direct duplicating film under IMAGELINK brand.***

Dallas, TX – Eastman Park Micrographics (EPM) is pleased to announce the introduction of a new family of direct duplicating films under the brand IMAGELINK Professional Direct Duplicating Film. In January 2013, EPM signed a long-term supply agreement with Agfa-Gevaert Group (Agfa) to provide microfilm and related photo chemicals to the market. While EPM already provides the broadest portfolio of micrographic media to the worldwide markets, these new products demonstrate the stated intent of creating additional products based on EPM's relationship with Agfa.

"This film is specially formulated for optimum contrast to meet the needs of the broadest possible audience of duplication film users, including all applications for newspapers, periodicals as well as standard office and text documents", says Robert Breslawski, Worldwide Media Product Manager at EPM.

The new film will be called IMAGELINK Professional Direct Duplicating Microfilm and will be available in a multitude of formats. Thickness and formats will include PET 06 (2.5mil), PET10 (4.0mil), 16mm, 35mm and 105mm, in various lengths from 305M (1000') to 762M (2500').

Introduction will occur over the next several months but limited samples are available at this time. Please contact [info@epm-inc.com](mailto:info@epm-inc.com) for further details.

IMAGELINK is a trademark of Eastman Park Micrographics, Inc.

### **About [Eastman Park Micrographics, Inc.](#)**

Eastman Park Micrographics was formed in March 2011 upon the purchase of the micrographic business from Eastman Kodak Company, including the ongoing rights to manufacture and sell former branded Kodak micrographics equipment. EPM now markets its media and equipment under its trademark IMAGELINK brand. EPM's mission is to develop and supply the microfilm materials, equipment and service to address the needs of the preservation market worldwide. In January 2013, EPM entered into a long-term worldwide master supply agreement with Agfa to provide additional IMAGELINK-branded micrographic products and photo chemicals to the market. In December of 2013, EPM acquired the assets and business of Imaging 411 and now provides EPM Support directly to its customers in the US and Canada.
