

### TAILORED SOLUTION FOR EVERY CUSTOMER

Conveniently package either unit dose or multi-med AdherePac™ pouches into a single CompletePac™. Organize both oral and non-oral solid medications into a single bag, organized by administration time or to help bridge the patient to the next cycle fill.

- Incorporate your logo, custom fonts and text sizes
- Single use or resealable bags in various sizes, horizontal and vertical orientations
- 2D and linear barcoding available
- Print patient information prior to loading pouch, ensuring patient medications are placed into the correct bag
- Return or discard discontinued non-patient specific unit dose pouches

CompletePac  
Pass time pouches

### ASSISTED LIVING

Give residents more independence by organizing all meds, both oral and non-oral solids, in a single bag by administration time with clear instructions right on the bag.

CompletePac  
Starter Kit

### DISCHARGE

Handle patient discharge from hospitals and surgery centers by including all necessary medications to last the patient until they see their primary care provider.

Compact tabletop design

### DAILY ORDERS & LEAVE OF ABSENCE

Ensures patient compliance throughout their LOA with optimal convenience for the patient and the family.
