

Simple, Sophisticated, Manageable, Adaptive CTMS - Visit Scheduling Module

Let us help you launch a solution to help you realize the power of adaptive clinical trial protocols , in under six weeks.

Consider the Value of:

- Easily Adapting and Managing your protocols based on participant data
- Providing visibility and access to all interested parties
- Having supporting information and content in context of the specific step in the protocols

Sample services:

- Adaptive Clinical Trials Visit Scheduling Tool
- End-user configurable protocol templates
- On-premise, Cloud or Hybrid deployment model

*"It would be so much easier if the patients enrolled in a clinical trial would simply follow the visit schedule."
- Paul Slagle, United Biosphere Corp*

OTB Solutions®

Adaptive CTMS - Visit Scheduling Module

The Visit Scheduling Module from OTB Solutions can scale to register, schedule and track tens of thousands participants in each trial. Participant visit schedule protocols are designed or modified on a visual design surface making it easier to manage. The Visit Scheduling Module is easy to learn and easy to use, and it can save you time and money while reducing many of the risks associated with managing adaptive clinical trials. Make a change to an inflight protocol and migrate subjects (or not), and you're done. The system automatically adjusts the schedule to account for the broader impact of that change, enabling you to modify the trial as needed, reduce the risk of human error, and get a you to market faster.

The image displays several key components of the OTB Solutions Adaptive CTMS Visit Scheduling Module:

- PTID Visit Schedule Form:** A web-based form for creating participant visit schedules, including fields for Participant ID, Schedule, Protocol Version, Group Number, Screening Date, and Enrollment Date.
- Schedule 1 Table:** A table listing visit types and their corresponding allowable dates.

Visit Type	Lower Allowable Day	Target Day	Upper Allowable Day
Screening Visit and Vaccination 1	12 Feb 2014	12 Feb 2014	12 Feb 2014
3.0 - 1 Day Post Vaccination	2014-02-13	2014-02-13	2014-02-13
4.0 - 2 Day Post Vaccination	2014-02-14	2014-02-15	2014-02-15
5.0 - 2 Week Post Vaccination	2014-02-24	2014-02-26	2014-03-02
6.0 - Vaccination 2	2014-03-12	2014-03-12	2014-03-21
7.0 - 2 Week Post Vaccination	2014-03-24	2014-03-26	2014-03-30
8.0 - Vaccination 3	2014-04-23	2014-05-01	2014-05-21
9.0 - 1 Week Post Vaccination	2014-05-13	2014-05-14	2014-05-16
10.0 - 2 Week Post Vaccination	2014-06-18	2014-06-21	2014-06-25
11.0 - Vaccination 4	2014-07-08	2014-07-30	2014-08-20
12.0 - 1 Day Post Vaccination	2014-07-31	2014-07-31	2014-07-31
13.0 - 3 Day Post Vaccination	2014-08-01	2014-08-02	2014-08-03
14.0 - 1 Week Post Vaccination	2014-08-05	2014-08-06	2014-08-08
15.0 - 2 Week Post Vaccination	2014-08-11	2014-08-13	2014-08-17
16.0 - Enrollment	2014-01-14	2014-01-17	2014-01-16
- Clinical Trial Scheduling Manager:** A process viewer showing a flowchart of trial activities, including Enrollment/Screening and Visit Scheduling, with associated data collection points.
- Upcoming Appointments:** A SharePoint page for managing trial appointments, featuring filters and a 'Create Linked Work Item' dialog box.
- Task Rework:** A dialog box for reworking tasks, with options for 'Data Collection (Steve Severson)' and 'Enrollment (Steve Severson)'.
