ShipConsole

The Premier Shipping Solution for Oracle

“With its unified interface for shipping, Oracle ship confirmation and reporting, ShipConsole helps us streamline our shipping execution and meet the growing demand for more shipments out of our warehouse.”

James English
Sr. Business Analyst
Siemens Water Technologies

Mission

To optimize and simplify shipping and logistics for Oracle Applications at an affordable price.

Shipconsole is an Oracle validated easy to use software for integration between Oracle E-Business Suite and freight carriers like UPS, FedEx and various LTL carriers. Online shipment processing, label printing, shipment tracking, instantaneous proof-of-delivery documentation, and Oracle ship confirmation are all done from a single unified interface in ShipConsole enhancing productivity and making it the one source for shipment-related information.

The ShipConsole Solution

- Easily create shipments for deliveries in Oracle E-Business Suite and ship via parcel and LTL carriers
- Capture published and negotiated freight costs for both parcel and LTL carriers and automatically save them back to your Oracle database
- Complete ship confirm process in Oracle E-Business Suite with the click of a single button
- Automatically send shipment notifications to customers in a variety of formats suitable for many devices including mobile
- Access shipment status and proof-of-delivery documentation instantly
- Print all Oracle shipping documents and carrier labels from one screen
- Consolidate multiple deliveries into a single shipment
- Audit freight invoices to identify billing errors
- Reduce your transportation spending with Freight Shopping
- Verify addresses to eliminate delivery delays and additional service fees
- Screen for Denied Parties
- File export information electronically using AES Direct
- Print customs documentation or use paperless invoicing
- Improve analytics using reports
- Integrate with Oracle Transportation and Warehouse Management (OTM & WMS)

Easy to Use | **Easy to Implement** | **Easy to Maintain**

“ShipConsole has dramatically improved productivity by providing a simplified single user interface which integrates with our carriers and streamlines Oracle Shipping Execution. Our shipping departments rely heavily on this important tool which not only speeds up our process, but provides better reporting and tracking capabilities than existed prior to ShipConsole.”

James Barron
Sr. Systems Analyst, Hologic, Inc.

Customer Survey Results

Benefits of using ShipConsole

- Increase shipping volumes with greater productivity from one-stop shipping process
- Reduce transportation spending with Freight Shopping
