

VÜ-MATEWireless Charging
Receiver Card**FEATURES**

TYLT VÜ-MATE is the easiest way to enable your Galaxy S5, S4 or Note 3 for Qi wireless charging. Recommended for use with the highly acclaimed TYLT VÜ Wireless Charger but also compatible with other Qi wireless charging pads. Watch the video to see just how easy it is to insert the VÜ-Mate into your device. Once you pop it in, it stays in and your device will always be ready for Qi wireless charging. The VÜ-Mate will not increase the thickness of your device or effect the fit of your protective case.

Compatible with all Qi Charging pads.

Simple, one time installation. Fits behind the existing back door

Adds minimal bulk, doesn't interfere with case compatibility*

Recommended for use with the TYLT VÜ wireless charger.

*Not all cases have been tested. May compromise the IP67 rating claimed by the device.
