

**Perpetual Storage, Inc.**

**WHEN SECURITY IS  
OF UTMOST IMPORTANCE**

# DATAVAULTING

**AN INCOMPARABLE SERVICE OFFERING**

With DataVaulting clients can send back-up, disaster recovery (DR) and archival data to servers inside PSI's remote vault where it is protected by armed guards, cameras, 200 feet of solid rock, and several other layers of security. Locating your infrastructure in PSI's facility allows your business to efficiently manage it's data through a highly secured and scalable facility.

**MAXIMUM SECURITY**

**MANAGED SERVICES**

**CUSTOMIZED SOLUTIONS  
AVAILABLE**

**SAFE FROM NATURAL  
DISASTERS**

## SECURITY IN SOLID GRANITE

The Perpetual Storage Vault was designed and built to meet rigid Department of Defense requirements for the proper protection of critical records. Since 1968, PSI has provided secure vital records storage for digital media in a paper-free environment, making it one of the world's oldest and safest off-site storage facilities.

- Maximum Security Facility
- Encased In A Solid Granite Mountain
- Flood Proof
- Secure Against Earthquakes
- Non-Flammable
