STEM	Xduro Alu, A-Head
GRIPS	XLC Sport with locking rings
SADDLE	Xduro Light MTB
SEATPOST	Xduro aluminum

GENERAL

COLORS	Black / White & Black / Lime
SIZING	40, 45, 50, 55cm

Key features

- A balance between up and down, this bike is equally at home climbing the mountain as it is blasting down it.
- The hydraulic brakes have more than enough stopping power to handle hard and fast riding. The 1x10 speed drivetrain is efficient and easy to maintain. 27.5" wheels are the perfect balance between rolling efficiency, weight and speed. Rock-Shox suspension fork is the best in the business.
- A mid-level spec makes this bike good for those looking for full suspension performance on a budget—but with the same electronics as our highest-end models, you won't notice.

Order Information
