ROSEASP DELIVERS THE LATEST VERSION OF MICROSOFT DYNAMICS GP

Microsoft Dynamics GP® 2013 R2 is now hosted in the cloud through RoseASP.

SAN DIEGO, Calif. (June 19, 2014) New product features in [Microsoft Dynamics GP](#) are now available through RoseASP, a top provider of hosted enterprise resource planning (ERP) software, announced RoseASP, Tuesday. In May, Microsoft released Dynamics GP2013 R2, the latest version of Microsoft's most scalable ERP solution, and included several exciting new enhancements which will now be supported in the RoseASP cloud environment and available for trial at www.goERPcloud.com.

"Making the latest versions of the software applications available in the cloud is an important part of our commitment to delivering new and continuing value to our customers," said Linda Rose, founder and CEO of RoseASP. "When we add new functionality to our product line, we further improve our customer's business processes, which is our ultimate goal as a hosting provider. We are looking forward to working closely with our partners to deliver the innovative new enhancements available in Dynamics GP 2013 R2, to both new and existing customers."

Microsoft Dynamics GP 2013 R2 includes enhancements to some of the most popular tools inside GP and increased productivity and collaboration with Microsoft Office 365. New features include enhancements to financial reporting, financial management, SmartLists, workflow approvals and distribution, along with newly added companion apps. For a complete list of new features inside GP 2013 R2 see this guide [What's New in Microsoft Dynamics GP 2013 R2](#). The new release is available as either subscription or perpetual licensing.

In addition to supporting Dynamics GP 2013 R2 in the cloud, RoseASP also offers businesses an opportunity to test drive the new feature enhancements through [goERPcloud Dynamics GP free 30 day trials](#). The ability to test the drive software before purchase helps businesses better evaluate the solution against their requirements.

To learn more about new and existing features in Microsoft Dynamics GP 2013 see the [Microsoft Dynamics GP 2013 R2 Capabilities Guide](#).
