DOT COMPLIANCE SOLUTIONS

COMPLIO

MAKING DOT COMPLIANCE SIMPLE

Your office is almost completely paperless. You email, you bank online, and you send electronic invoices. Why, then, should your driver qualification files be overflowing with paperwork? Complio provides you with the techno-logy necessary to completely digitize and streamline the DOT compliance process.

1

Great Features
Complio is an all-inclusive solution for managing your company's compliance with DOT regulations. From DQ files and random drug testing to BASICs scores and vehicle maintenance, Complio is an all-in-one hub for your DOT processes.

2

Intuitive interface
Everything about Complio is designed to make managing your own compliance a snap. The Complio interface is designed to be instantly accessible to users of every experience level. The idea is to get you up and running without having to deal with excessive complexity or a big learning curve.

3

Mobile friendly
Complio comes ready-made to work on all your devices, from the desktop to tablets and phones. Know your DOT metrics from anywhere, at a moment's notice, and be able to take the actions necessary to stay compliant.

4

Flexible Pricing
The Complio pricing structure gives motor carriers of all sizes the ability to afford a modern DOT compliance solution. With a flexible price scale based on driver count, cost justification is a breeze.

Unique Features of Complio:
· Digitize all driver qualification files
· Make DQFs fully visible and automated
· Track status of vehicle maintenance
· Breakdowns and alerts for CSA scores
· Drug testing program management
· Actionable details to help you stay compliant

GOING DIGITAL

LET COMPLIO BRING YOU INTO THE MODERN ERA OF DOT COMPLIANCE

Even FMCSA is transferring all of its resources and services online. Complio technology helps you benefit from these changing processes.

You have likely noticed, if you have been managing driver qualification records over the last few years, that everything is being moved from paper to the Internet. CSA scores, DataQs, accident registrations, and many other processes are all being administered online now.

These changes have made compliance data ever more accessible and visible to the general public and to DOT auditors. This makes compliant businesses easier to find, but it also makes non-visible mobile careers look less reliable. The best way to avoid this problem is to use the tools provided by Complio to move the compliance process online and instantly boost visibility, transparency, and credibility.

MAKING YOUR JOB EASIER

While you may understand that digitizing your driver qualification records and taking your DOT compliance processes online will benefit your business, you might be worried about the hassle and complications associated with such a transformation.

The beauty of Complio is that the software is intuitive and incredibly user friendly. You and your team are guided through the process of automating your DQF, vehicle maintenance information, and CSA management.

COMPLIO MAKES YOUR DOT COMPLIANCE PROCEDURES SIMPLER THROUGH DATA VISUALIZATION.

DETAILS NO LONGER GO OVERLOOKED THANKS TO THE OVERVIEWS AND REPORTS PROVIDED BY COMPLIO, WHICH INCLUDE ACTIONABLE DETAILS, SHOWING MANAGERS EXACTLY WHAT NEEDS TO BE DONE TO STAY COMPLIANT.
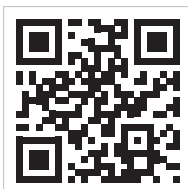

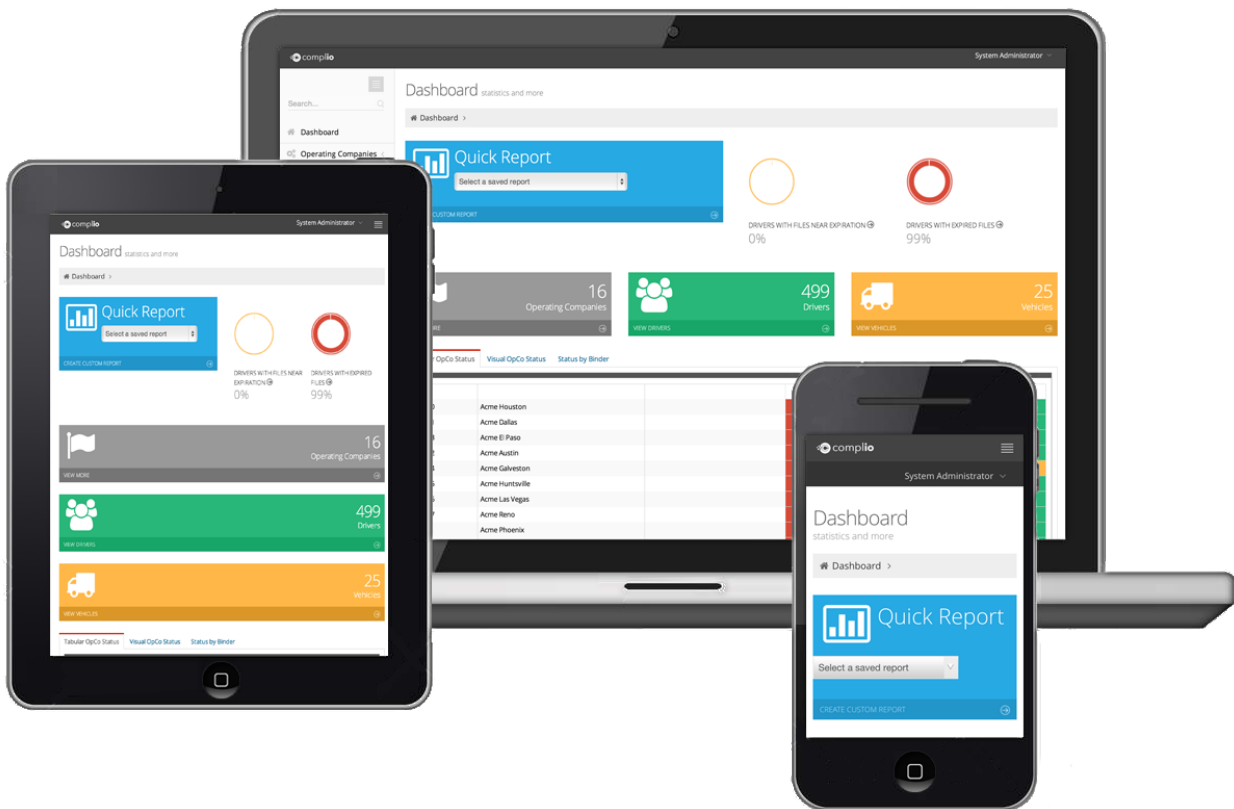

The software includes easy-to-navigate dashboards, breakdowns and alerts for CSA scores, driver qualification and vehicle maintenance expiration dates, random drug testing program management, and many other tools to ensure that you meet and exceed necessary standards.

The software monitors and tracks your progress, so that you can spend more time running your business. Having Complio on your side can mean the difference between a conditional and a satisfactory DOT safety rating.

TRY A DEMONSTRATION OF COMPLIO TODAY, AND SEE THE DIFFERENCE FOR YOURSELF

We are confident that once you try the Complio software firsthand, you will see just how significantly these resources and processes can streamline and improve the way you manage your DOT compliance practices. Contact us today to try a free demonstration.
