

ADVANCED PLASTIC &
POLYMER INNOVATORS

PARTNERSHIPS THAT SHAPE THE MARKET

“From the beginning it was all about developing a device that was easy to use, portable, and super lightweight that maintained structural stability. Quadrant® DELRIN is laserable, lightweight, and has superior mechanical properties.” – JAMES OLANDER *Creator of The Roost*

THE ROOST™
Ultra-Portable Laptop Stand

FEATURING QUADRANT® DELRIN

QUADRANT EPP, the global leader of machinable plastic materials and stock shapes, recently partnered with **The Roost**, developers of the innovative new laptop stand, a slim and sleekly designed innovation that is ergonomically correct, ultra portable and structurally sound. Quadrant® DELRIN is a key element to the lightweight, high strength properties for which the stand is gaining accolades and rave reviews.
