SIGNORITY

Signority: eSign with Ease and Assurance

Close Contracts Faster, Reduce Costs, and Improve Customer Experience

In the process of closing contracts, document workflow with signatures is usually the most critical and difficult part. Signority offers the fastest, most cost-efficient, and highly secure way to send, sign, collect, track, and store your documents. Signority improves business results by helping customers accelerate cycle time and enhance the signing experience.

Faster & Easier

No more printing, scanning, faxing, or overnight courier. The signing can be done anytime, anywhere, on any device. The easy-to-use application enables users to speed up document workflow both internally and externally.

More Cost-efficient and Improved Results

Signority provides a Software-as-a-Service (SaaS) solution requiring no software, hardware, or installation. Signority users save money and improve productivity by eliminating overwhelming paper management costs. Realize positive ROI sooner by signing and closing contracts in minutes with Signority.

Legal and Secure

Signority provides electronic signatures that are compliant with U.S., Canadian, and international e-signature laws. Legally binding complete document certificate, multi-level authentication, 256-bit SSL encryption protocol, and PKI are provided to secure highly-sensitive documents.

Customized Integrations

Signority has a standard API to integrate with 3rd party software applications seamlessly. Several major CRM and DMS solutions are currently being integrated. We make it easy to manage contracts in a streamlined way.

Improved Customer Experience

Implementing Signority dramatically improves the customer experience. Simplification, speed, ease of use, security, flexibility, and high quality support are major factors that customers enjoy. Customers get peace of mind that the documents are processed on time, accurately, and orderly.

LAW LABARGE WEINSTEIN

"As a transactional lawyer, Signority has dramatically streamlined my process for gathering signatures from multiple parties. The product is saving my firm and our clients time and money that used to be spent on putting together and distributing signature packages, chasing parties for signatures, and compiling completed, signed documents".

-Lindsay Clark, lawyer
