

Solutions Brief
[Intel® Developer Zone](#)

Enabled by Intel® Atom™ Tablets for Android*

The UBANK application by uBank Mobile Unlimited is now available on Intel® Atom™ tablets for Android*. A wide variety of financial tools and transactions puts users in control at the tap of a finger. As an Intel® Software Partner, uBank Mobile Unlimited is able to take advantage of a broad range of business and technical support through the Intel® Developer Zone.

Mobile banking frees customers to handle their financial needs at any time from any location. Lending, transferring and managing money are fast and convenient. Tablet users view up-to-date account activity, pay bills from their accounts or credit cards and easily send money to friends and family. Independent contractors and small business owners can bill clients and receive payments right on their personal touch screen without wasting time or paper. An intuitive, attractive interface consolidates all relevant banking information in one, simple app. Extensive security measures provide users with the piece of mind that comes with protected, 24-hour access to a clear financial picture.

uBank Mobile Unlimited Brings Personal Financial Tools to Android* Tablets

Mobile devices have streamlined the banking process by bringing transactions directly to the user. Now that uBank Mobile Unlimited has optimized the UBANK app for Intel Atom tablets for Android*, users have the power to make informed decisions about their money at any time of day or night.

Secure Protection and Data Encryption

Rigorous security protocols ensure that all transactions are secure and private. Reliable data encryption and limited account exposure keep all personal funds and transactions protected. Users can rest easy knowing their money and information are safeguarded.

Instant Payments

Users can easily make commission-free payments right on their high-definition screens. Payments transfer instantly so users can avoid late fees and they can choose to pay from their UBANK account, or using their stored, secure credit card information. Tablet users can send money to friends and family by simply entering their phone number.

Versatile Transfers

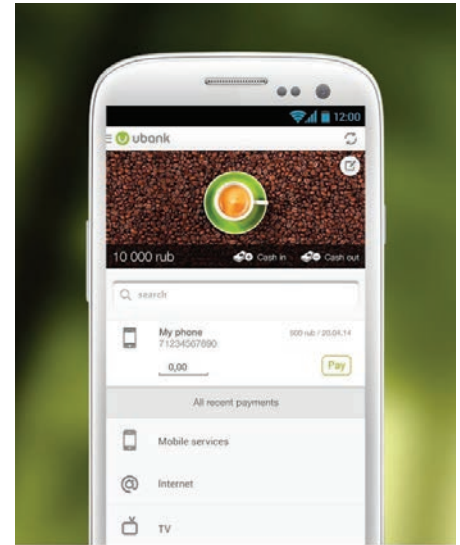

Money can be moved from one account to another, or one card to another without the hassle of walking into a bank. An invoice function lets users bill clients easily and send them to one or multiple recipients. Easy-to-use tools allow maximum flexibility in managing day-to-day transactions.

Clear Financial Picture

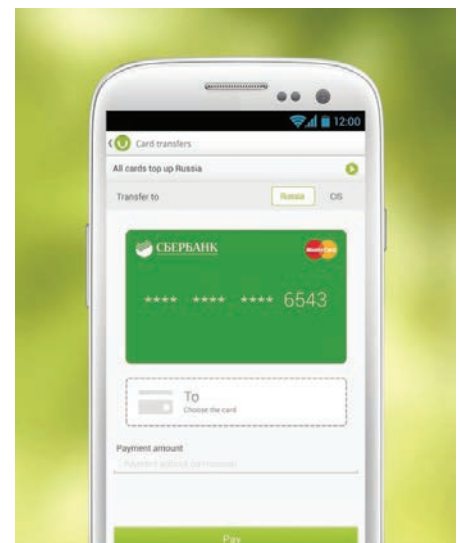

UBANK shows users their spending in a comprehensive way with a pie chart that tracks financial activity. This feature lets mobile device users make smart decisions about their bigger, economic picture. Budgeting and planning are simplified with this visual aid.

Mobile Banking for Greater Flexibility

This all-in-one tool provides mobile device users with a fast, convenient method for handling all their important transactions. With the new optimization for Android* tablets, users achieve a higher level of financial control by monitoring and managing their money on the go.

Instant payments from smartphone without commissions.

Send money easily from one card to another.

UBANK by uBank Mobile Unlimited on Tablets for Android* Powered by Intel®

Recent compatibility with powerful, versatile Android* tablets provides a reliable, responsive platform to accomplish all personal banking needs. The lightweight, sleek design helps users to manage their money at anytime of day, wherever they are. Intel® Atom™ processors offer hours of high-speed functionality so users can stay on top of their financial picture.
