Invitation

OMICS Group welcomes you to attend the **2nd International Conference on Epidemiology & Evolutionary Genetics** during August 18-19, 2014 at Beijing, China.

We cordially invite all the participants who are interested in sharing their knowledge and research in the area of Public Health and Genetic Disorders.

Epidemiology-2014 anticipates more than 200 participants around the globe with thought provoking Keynote lectures, Oral and Poster presentations. The attending delegates include Editorial Board Members of related OMICS Group Journals.

This is an excellent opportunity for the delegates from Universities and Institutes to interact with the world class Scientists.

The intending participants can confirm their participation by registering for the conference along with your colleagues. Avail the delegate early bird offer.

The main theme of the conference is "**Research and Development in Global Health Care**".

Regards,

Epidemiology-2014 Organizing Committee

About Us

OMICS Group Journals

- 300 Open Access Journals
- 21 Day rapid review process
- 22000 Editorial team, 27000 Reviewers team
- 2.5 Million readers and high visibility
- More than 100000 
- Publication immediately after acceptance
- Quality and quick editorial, review processing

Key features

- User friendly/feasible website translation of your paper to 50 world's leading languages
- Enhanced feature: Audio version of published paper
- Digital articles to share and explore
- Sharing option: Social networking enabled
- Authors, reviewers and editors are provided with scientific credits

OMICS Group Conferences

- 80 Conferences all over the World every year
- Well organized scientific program
- Renowned speakers and scientists across the globe
- Poster presentations and world class exhibits
- Panel discussions and interactive sessions
- B2B meetings
- Perfect platform for Global Networking

Key features

- Presentation by renowned speakers from all over the world
- Poster presentations and world class exhibits
- Interactive Sessions
- Platform for global networking
- Connecting scientific community

Special Issues

All accepted abstracts will be published in respective OMICS Group Journals

Each abstract will be provided with digital Object Identifier by 

The need for public health specialist is growing rapidly as novel and unpredictable disease outbreaks are occurring in one or the other place at some point on our planet. The importance and significance can be gauged by the fact that it has brought huge challenges over the course of time and is continuing to influence various sectors of Public health.

Epidemiology-2014

- A very good opportunity for the attendees to listen and present to the talk, analysis, criticism, and suggestions from the Leading health experts from Asia and around the world
- It gives wide scope for the researchers to discuss on various health care issues as the venue is in the heart of Asia, Beijing
- A very good platform for young researchers to commonly share platform with the experts of various expertise and a possibility to expand their boundaries of understanding
- We will have enthusiastic participation firstly from China and also from countries around Asia as such, India, Japan, Singapore, Malaysia, Australia, New Zealand, South Korea, North Korea, Thailand, Philippines, Indonesia, Saudi Arabia
- Though it is a long way for travel, participant are also invited from USA, UK, Germany, France, Canada and other countries of interest
- Simply to say, Discuss Issues and bring on Innovation, it is all we will expect out of this conference
- Selected contributions will be published in following OMICS Group Journals,
 - Epidemiology: Open Access
 - Journal of Genetic Syndromes & Gene Therapy
 - Hereditary Genetics: Current Research

About Beijing

About: Beijing, formerly Romanized as Peking is the capital of the People's Republic of China and one of the most populous cities in the world, with a population of 19,612,368 as of 2010. The metropolis, located in northern China is governed as a direct-controlled municipality under the national government, with 14 urban and suburban districts and two rural counties. Beijing Municipality is surrounded by Hebei Province with the exception of neighboring Tianjin Municipality to the southeast. Beijing is China's second largest city by urban population after Shanghai and is the country's political, cultural, and educational center and home to the headquarters for most of China's largest state-owned companies. Beijing is a major transportation hub in the national highway, expressway, railway and high-speed rail network. Beijing's Capital International Airport is the second busiest in the world by passenger traffic.

Weather/Climature in Beijing: Beijing is located in east of the Asian continent and the climate has obvious temperature differences. Beijing climate zone is usually warm , half moist continental monsoon with four distinct seasons. Spring time in Beijing is little dusty and windy. Spring time is short here and excursion is popular during that time. Summer time is also short and the hot weather will be compensated with plenty of rain. Autumn, which lasts around 50 days is the best time for tourism as the temperature is mild and sun appears warm to enjoy the weather. Coming to winter, winter here is usually long and cold , but the ice lantern shows and skiing still attracts many tourists.

Taking account of all the factors, Beijing is best to give a visit in Autumn (September and October). Just to remind, our conference falls in the middle of the August which will also a good time as autumn is just around the corner. Autumn in Beijing will have clear sky and the best air quality which is also called the "Golden Season". Travelling in "May" is also considered good choice if you can accommodate your schedule.

Universities in Beijing: Beijing is also the academic capital in China as is the home for many of the internationally acclaimed universities as such Peking University and Health Science Center, Peking Union Medical College, Tsinghua University, Renmin University, Beijing Normal University, China Center for Advanced Science and Technology, and more.

Monuments, Landmarks, and Attraction nearby Beijing: There is a whole bunch of exciting places in and around Beijing if you are planning to spend few extra days in China. Some of the landmarks nearby Beijing and the distance from the conference venue is given in the brackets - Great wall of China (83 Kms) , Temple of Heaven (8.7 Kms) , Tian anmen Square (8.1 Kms) , Beijing Capital Museum (3.3 Kms) , Ming Tombs (52 Kms) , Summer Palace (17.4 Kms) , Three Pagodas of Chong Shong Temple (2800 Kms) , Beijing National Stadium (18.1Kms).

Do not miss out for the Health and wellness spots around Beijing to relax and revitalize your body and soul.

Above all, Beijing is an important destination in Asia as we wish to experience their cultural and spiritual values.

Finally, Our conference organizing committee welcomes you all to take part in this wonderful conference under the right theme in the right destination and wishes you all to have a wonderful time in Beijing !!!
