Adolfson & Peterson Completes Record-Setting Aquatic Facility for Lewisville ISD

(Richardson, Texas) June 25, 2014 – Adolfson & Peterson recently completed the Westside Aquatic Center in Lewisville, a 75,000 SF aquatics facility housing a 50 meter Myrtha competition pool – one of only two in Texas.

Adolfson & Peterson worked tirelessly to build a world-class aquatics facility for the district, overcoming many challenges throughout the course of the project to ensure that the project was delivered with the highest regard for safety and quality while diligently protecting the project budget. The end result is a landmark aquatics facility that was completed under budget.

Highlighting the quality of the aquatics center, several new records were set at the first prelim/final meet held the weekend of June 14-15 at the new facility. 487 swimmers participated in the meet and the following records were set: 33 Meet records were broken; 5 National Age Group records were broken; 3 Olympic Trial cuts were achieved.

Quentin Burnett, Chief Financial Officer for LISD, provided his sentiments by way of a reference letter to A&P: “Adolfson & Peterson overcame numerous challenges in completing the project, brought the project in under budget, and delivered a truly unique facility that redefines the standard for high school natatoriums nationwide.”

Mr. Burnett also congratulated A&P for “a job well done in providing LISD with an innovative and sustainable building that will be celebrated for many years to come.”

“A&P is proud to have served as the contractor for the Westside Aquatics Center, a state of the art swimming and diving facility that is truly second to none,” said Corbett Nichter, Senior Vice President of Adolfson & Peterson Construction. “Our team showed amazing grit and determination in the face of significant challenges and delivered a facility that will serve Lewisville and the surrounding communities for many years to come.”

The new aquatics center is located on FM 3040 next to the LHS Harmon Campus.
