

Visit <https://rems.painedu.org> Helping You Balance Safety & Efficacy

The rising tide of opioid abuse has created complex challenges for health-care professionals. While you want to control your patients' chronic pain, you worry about the risk of addiction, overdose and death. The **PainEDU REMS Education Program** can help. This set of CME activities will make you more confident in managing pain care when extended-release and long-lasting (ER/LA) opioid analgesics are an appropriate part of therapy.

Essential Course Content

Our online program consists of three one-hour CME activities totaling 3.0 AMA PRA Category 1 Credits™. The content, which is geared toward prescribers of ER/LA opioids and other healthcare professionals includes:

- Fundamentals of Safe and Effective Use of ER/LA Opioid Analgesics in the Management of Chronic Pain
- Safe and Effective Management of ER/LA Opioid Analgesic Therapy
- General Concepts and Information About ER/LA Opioid Analgesics

The FDA and REMS

In April 2011, the Food and Drug Administration (FDA) announced the elements of a Risk Evaluation and Mitigation Strategy (REMS) to ensure the benefits of ER/LA opioids outweigh the risks.

The PainEDU REMS Education Program - a component of the FDA REMS - covers all aspects of the FDA curriculum for ER/LA opioid REMS education.

Why You Should Participate?

The PainEDU REMS Education Program is:

- Clinically Relevant: Focuses on practical information and case-based learning (e.g. patient vignettes) that will change your practice.
- Engaging and Interactive: Easy to use, with valuable content (e.g. videos, learning library) that you can explore at your own pace. Based on best practices in Adult Learning Design.
- A Complement to PainEDU.org: Includes access to PainEDU.org, the premier pain management website. Check out other CME courses; the Screener and Opioid Assessment for Patients with Pain (SOAPP) and Current Opioid Misuse Measure (COMM); and articles, interviews and publications featuring the insights of PainEDU members and other pain treatment experts.

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through joint sponsorship of Albert Einstein College of Medicine of Yeshiva University and Inflexion, Inc. Albert Einstein College of Medicine is accredited by the ACCME to provide continuing medical education for physicians.

Albert Einstein College of Medicine of Yeshiva University designates this enduring material for a maximum of 3.0 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

This educational activity is supported by an independent educational grant from the ER/LA Opioid Analgesic REMS Program Companies. Please see www.er-la-opioidREMS.com for a listing of the member companies. This activity is intended to be fully compliant with the ER/LA Opioid Analgesic REMS education requirements issued by the US Food & Drug Administration.
