NECC's Pneuline Controls PCL500 Universal Pneumatic Calibration Kit Now Available

National Energy Control Corporation (NECC), a leading commercial HVAC distributor, announces the availability of its Pneuline Controls PCL500 Universal Pneumatic Calibration Kit. This kit is used by HVAC technicians to calibrate, troubleshoot and repair pneumatic control systems.

Havertown, PA, July 1, 2014 - National Energy Control Corporation (NECC), a leading wholesale distributor of commercial/industrial HVAC supplies, announces the availability of its Pneuline Controls® brand PCL500 Universal Pneumatic Calibration Kit. It is available for sale online at <https://necc-controls.com/products/PCL500-Pneuline-universal-pneumatic-calibration-kit.html>, or call 800-227-9800 to order.

The PCL500 Universal Pneumatic Calibration Kit is used by maintenance mechanics and service contractors solve calibration problems for pneumatic controls made by Honeywell, Barber-Colman, Johnson Controls, Robertshaw, Powers and other original equipment manufacturers (OEMs). This kit contains the tools and equipment needed to calibrate, troubleshoot and repair pneumatic control systems without buying separate kits from many different OEMs.

NECC has assembled this kit based on its extensive knowledge and experience with pneumatic controls. It is sold exclusively by NECC. The PCL500 Universal Pneumatic Calibration Kit includes:

- > Calibration wrenches and adjusting tools for all major brands
- > Calibrating pressure gauges and thermometer
- > Baumanometer air bulb and pressure reducing valve
- > Starter kit of adapters, fittings and tubing
- > Temperature transmitter chart
- > Receiver-controller authority/proportional band slide rule calculator
- > Durable molded toolbox with divided trays and extra storage space

“Pneumatic controls are widely used in existing HVAC systems and this calibration kit helps keep them operating precisely and effectively,” said Mark McGann, NECC Vice President. “Our Pneuline Controls kit is cost effective since it can be used with the pneumatic controls from most OEMs.”

About National Energy Control Corporation

National Energy Control Corporation (NECC) is an authorized wholesale distributor of over 200,000 parts and controls for commercial/industrial HVAC systems. NECC specializes in
