## **Adolfson & Peterson Receives Distinguished Building Award for Landmark Studio Project**

Richardson, TX—July 3, 2014—Adolfson & Peterson Construction (A&P) was recently awarded the first place Distinguished Building Award for its work on the NBC 5 Studios at CentrePort project from TEXO and the Associated General Contractors Texas office.

Recipients of the Distinguished Building Award were judged on the following criteria: difficulty in construction resulting from design, location and materials; unusual construction techniques involved; final appearance and quality of the finished product; timeliness of completion; and ability to maintain safety throughout the project. Of the eight projects submitted to TEXO in the \$10 – \$30 million building category for the Distinguished Building Awards, NBC 5 Studios at CentrePort took top honors.

The NBC 5 Studios project is located within CentrePort Business Park and in the heart of the Dallas-Fort Worth Metroplex. Developed by KDC Real Estate Development and Investments (KDC), the studios include a state-of-the-art 75,000-square-foot facility that serves as the home of KXAS NBC 5, KTXN Telemundo 39, NBC News DFW Bureau and other NBC Universal businesses. NBC 5 Studios at CentrePort is the first ground-up installation of a major broadcast facility since 1974 in Dallas-Fort Worth.

“Adolfson & Peterson is proud to receive the Distinguished Building Award for its role on the NBC 5 Studios project,” said Corbett Nichter, Senior Vice President with Adolfson & Peterson. “The success of this project is a direct result of the world class team on this project, including KDC, NBC and Corgan Associates.”

Winning TEXO’s Distinguished Building Award now qualifies A&P to compete for the national ABC Excellence in Construction Awards, which will be announced in March 2015.
