

Physician Testimonials

"Our results showed no influence of microneedle depth, in fact patients in Group A appreciated minimal invasiveness and results more than the other group. Radiofrequency has shown to be safe and effective in the treatment of skin wrinkles and neck skin laxity, accompanied by patient satisfaction, minimal pain and short downtime".

Dvora Ancona, MD, Milan, Italy

"With the Pollogen LEGEND + system, I can totally achieve the results my patients and I desire. The facial dermal volumizing and wrinkle reduction results are exceptional. The skin becomes more supple and elastic and my patients look and feel years younger. Most importantly, the results are natural-looking which is what my patients want."

Michael H. Gold, MD, Nashville, TN

"This is a tremendous advance in non-surgical body shaping. What's exciting is one device can improve cellulite, lax skin, and overall contour."

Amy Forman Taub, MD, Chicago, IL

"TriPollar treatments have a truly attractive profile for non-surgical body contouring and anti-aging. I have used nearly every other non-invasive technology available, and when it comes to the patient satisfaction, TriPollar is superior. My patients are experiencing remarkable results from the very first treatment with absolutely no pain."

Ronald L. Moy, MD, Beverly Hills, CA

"As principle investigator of Pollogen's FDA clinical trial, I am pleased to be the first practice to work with TriPollar technology in the USA. We performed 136 treatments in our FDA study without any side effects. Patients reported a pleasant and pain-free experience and were satisfied with the results. I observed a significant reduction in wrinkles over all, I am impressed by the immediate and long-term results achieved with the TriPollar technology and its strong safety profile."

Steven, Shapiro, MD, Palm Beach Gardens, FL

The Pollogen LEGEND+ system is intended for use in dermatological and general surgical procedures. The Pollogen LEGEND+ system is indicated for use in dermatological procedures requiring ablation and resurfacing of the skin using the VO Applicator. It is also intended for use in dermatological and general surgical procedures for the non-invasive treatment of mild to moderate facial wrinkles and rhytides when using TriPollar RF Energy (Applicators 1-3). TriPollar technology is internationally approved for facial and body treatments for cellulite, wrinkle and skin tightening treatments. The Pollogen LEGEND+ system is for sale only in the U.S.

Sculpt, Tighten, Enhance
Immediate & long-term results
with no discomfort or downtime

Pollogen LEGEND+ with VoluDerm™ & TriPollar®
TECHNOLOGIES

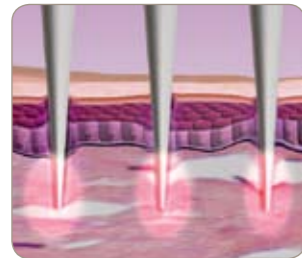

Pollogen LEGEND+ is an advanced aesthetic system with a dual technology platform that combines VoluDerm and TriPollar technologies. Finally there is a system that provides visible immediate and long-term anti-aging results with minimal discomfort and no downtime.

How does VoluDerm™ technology work?

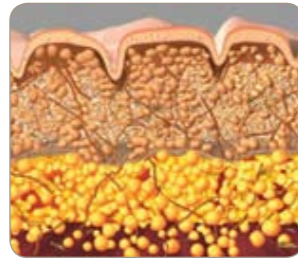

VoluDerm is a minimally invasive solution that uses fine micro-pins combined with radio-frequency to gently ablate the epidermis and heat the deeper dermis layer. The micro-pins stimulate the body to naturally produce hyaluronic acid, new collagen and elastin. The result is significant with long-term dermal volumizing, wrinkle reduction and skin resurfacing.

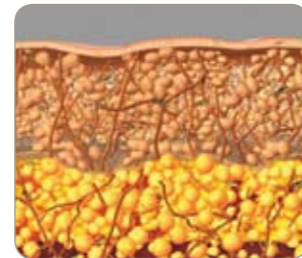

Smooth and painless skin penetration

Dermal volumetric effect

Immediate results: Collagen fibers contract – short term skin tightening

Long term results: Increases fibroblasts metabolism – collagen remodeling firms and tightens skin appearance

How does TriPollar® technology work?

TriPollar is a 3rd generation radio-frequency (RF) technology for non-invasive facial and body contouring. It generates the RF current between 3 or more electrodes and focuses the energy to the treatment area only. As a result, TriPollar RF delivers immediate and long-term skin tightening and rejuvenation, fat reduction and body contouring as well as cellulite reduction.

The Pollogen LEGEND+ platform includes 4 ergonomically designed applicators

1 x VoluDerm applicator with a single-use micro-pin tip 3 x TriPollar applicators for different size areas

Pollogen LEGEND+ is a powerful RF platform, with the leading micro-needle RF Voluderm technology.

Treatments provide effective **dermal volumizing, skin tightening & body sculpting** treatments **without** pain, bruising, bleeding and no downtime.

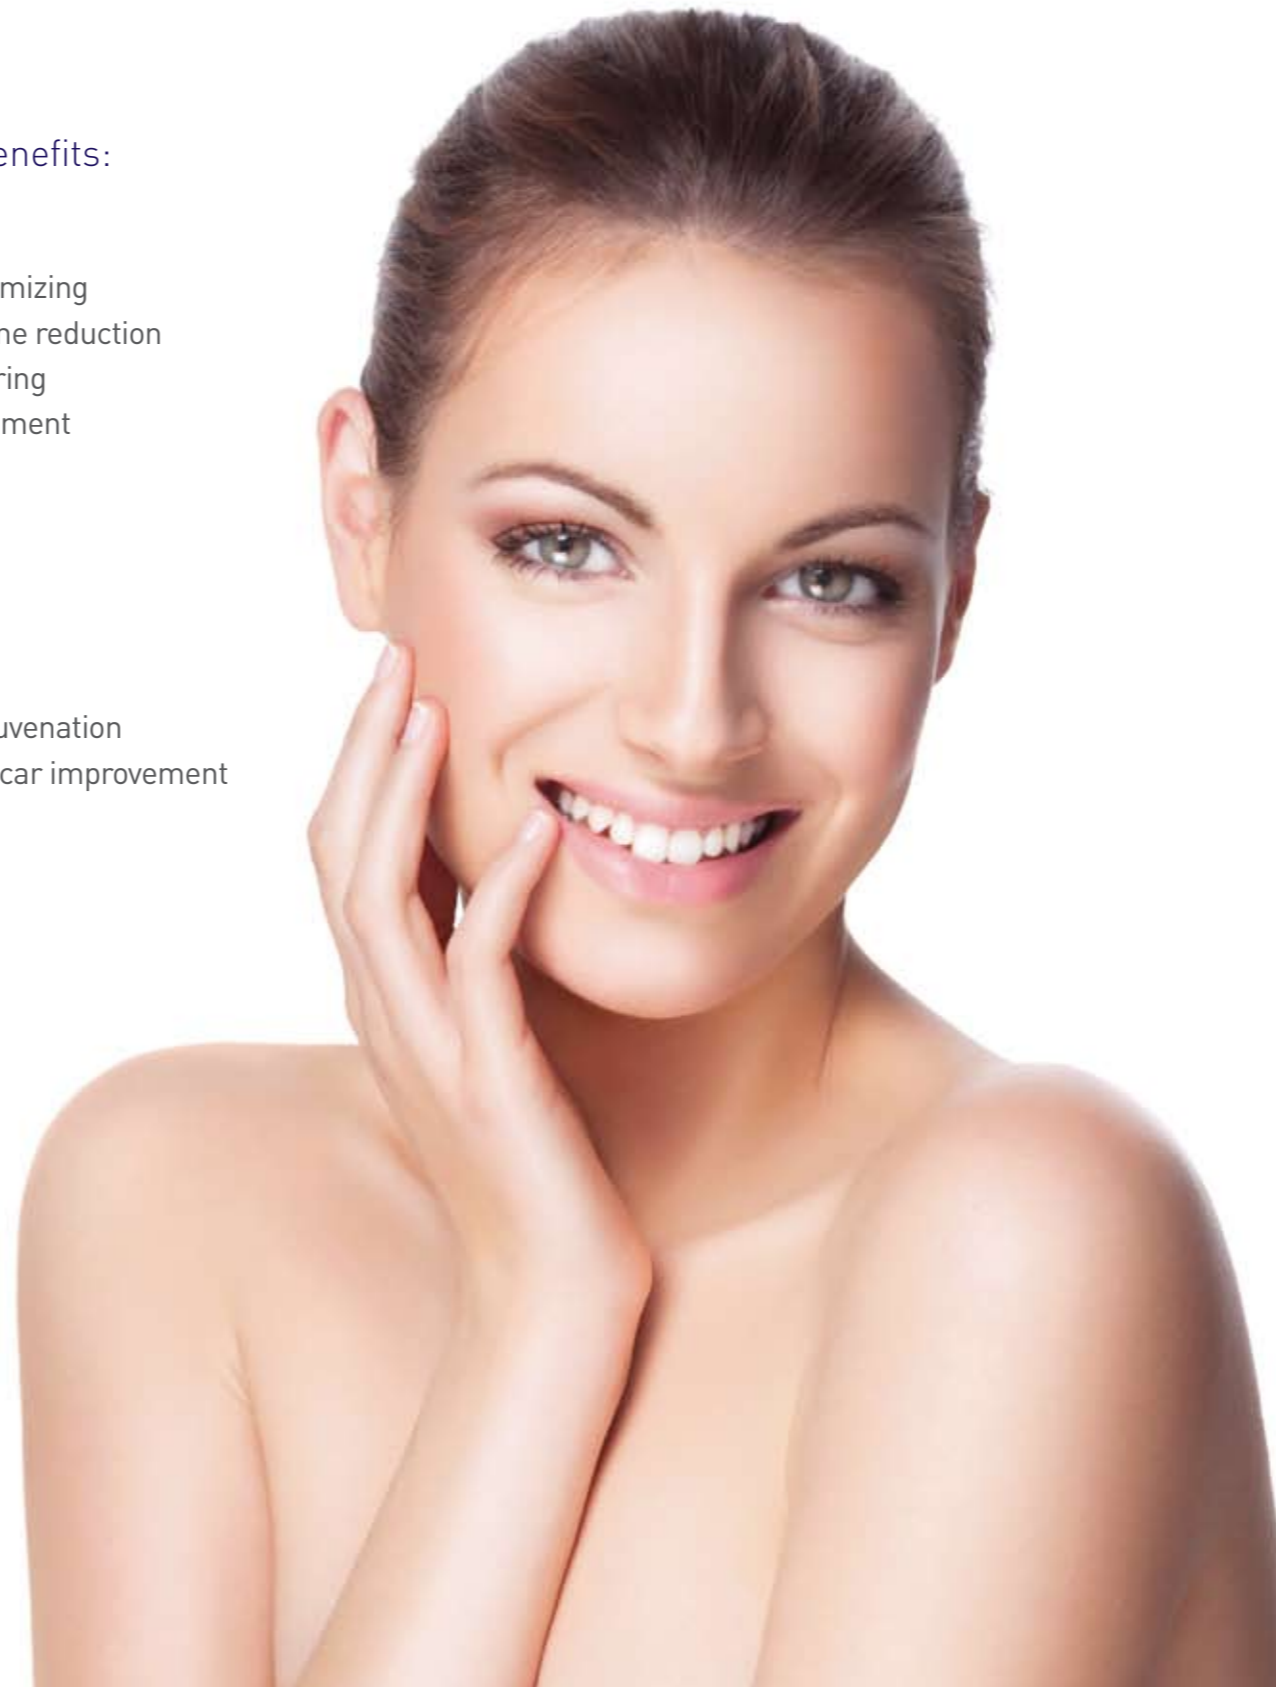

Key treatment benefits:

Face

- Facial dermal volumizing
- Wrinkle and fine line reduction
- Facial skin contouring
- Acne scar improvement
- Skin resurfacing

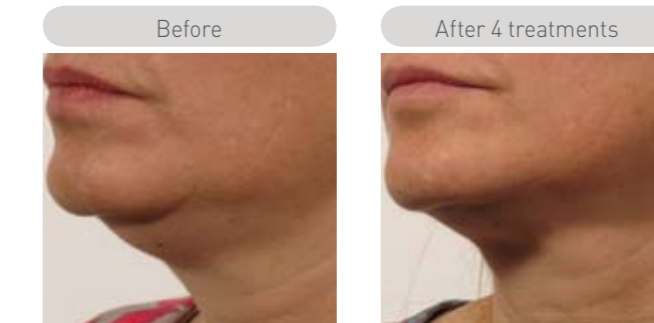

Body

- Body contouring
- Cellulite reduction
- Skin firming & rejuvenation
- Stretch marks & scar improvement
