

# The High-energy Excitement of Bubble Blaze by Outplay Entertainment

## Now Available for Intel® Atom™ Tablets for Android\*

A successful partnership between Intel and Outplay Entertainment brings the wildly popular Bubble Blaze app to Intel® Atom™ tablets for Android\*. Now, mobile device users can join over one million fans in the bubble popping puzzle challenge.

Over 160 tricky puzzle games invite players to pop, tilt and race to the highest score. With so many possibilities, users can hone all kinds of gaming skills like: match three, beat-the-clock and obstacle courses. Players unlock special bubbles like rainbows and fireballs, even creating jewel showers to score more points and advance. Stunning graphics and splendid sound effects make the game a satisfying, sensory experience.

## Bubble Bursting fun now available on Intel Atom Tablets for Android\*

The exhilarating action lasts for hours on versatile, portable Android\* tablets. Now enthralled gamers can keep the fantastic action going wherever they are located. The tilt sensitive screen lets players maneuver around tricky obstacles and the fresh, crisp graphics look incredible on the high-resolution screen. A reliable platform with hours of responsive functionality, Android\* tablets offer gamers hours of electrifying gameplay.

Now, users can easily download Bubble Blaze right onto their high-definition screens. Mobility lets users take the game with them and a high-speed Internet connection lets users check their scores and challenge each other wherever they have a signal. Tablets offer desirable flexibility when it comes to the action-packed, visually breathtaking experience of Bubble Blaze.
