

# Physician Advisory Services

Weatherbee now offers **Physician Advisory Services** provided by experienced hospice Medical Directors and team physicians who are completely up-to-date on all hospice regulations.

Physician consultants provide the information, coaching, and support needed to ensure that you and your physicians are able to focus on caring for patients and families while ensuring quality and compliance.

**Physician Advisory Services** may include:

- Assisting with the interview, selection, and on-boarding process for new physicians
- Orienting new hospice Medical Directors and team physicians
- Providing physician coaching and mentoring
- Providing telephone consultations on complex issues
- Developing and facilitating customized education, either on-site or via distance learning
- Auditing physician and other documentation
- Assisting your hospice physician with re-tooling the interdisciplinary group meeting and related processes
- Preparing your team for Administrative Law Judge (ALJ) hearings
- Providing expert witness testimony in ALJ hearings and other legal matters involving patient eligibility

Learn how Weatherbee's **Physician Advisory Services** can help your physicians focus on providing the highest quality care to patients and family.
